Professional Summary

Product Owner and credit risk data specialist with 13 years across banking risk, regulatory reporting and agile delivery. I combine **product backlog ownership** with hands-on work in the **credit risk data landscape: CCR, EAD, CVA, RWA**, Basel frameworks and regulatory reporting at **HSBC, Credit Suisse and Standard Bank**. At KBC in Brussels I owned backlog delivery for **Basel IV and AnaCredit calculation engines** reporting to **NBB and ECB**, and worked daily with risk, data management and IT stakeholders. I lead agile squads, turn regulatory and business priorities into delivery plans, and design clear **data flows, lineage and governance** between risk teams and engineering.

Core Skills

Experience

Delivery Lead

September 2021 to October 2024

KBC Bank and Verzekering, Brussels and Leuven

Liquidity Reporting unit: regulatory calculation engines, risk data and federated delivery across Belgium, Hungary, Czech Republic and Bulgaria.

- Owned the **Basel IV and AnaCredit calculation engine backlog** against mandatory **NBB and ECB** reporting deadlines; prioritised work across squads to keep **RWA** and regulatory windows on track.
- Led agile delivery with **product owners, scrum masters, risk and data teams**: sprint planning, dependency management, SteerCo reporting and escalation when squads were blocked.
- Worked with risk, data management and IT on **data quality, lineage and reconciliation** for regulatory reporting programmes.
- Delivered **GDPR implementation for Corporate and Retail Banking** alongside data-heavy regulatory change in cloud and platform environments.

Director for Agile Delivery Excellence

November 2024 to present

iostring Technology and Consulting, India

Coaching product owners and squads for regulated financial services clients, including investment banking

- Work closely with clients in the **investment banking domain** on credit risk, regulatory reporting and agile squad delivery.
- Coach **product owners and scrum masters** on backlog quality, regulatory change delivery and stakeholder communication with risk and audit audiences.
- Run sprint planning, stand-ups and review rhythms; help squads remove blockers across risk, data and engineering dependencies.

Product owner and manager, Carbon Zero

October 2020 to September 2021

UST Global for Uplight, India

- Owned the **product backlog**, roadmap and release plan for a data product on Google Cloud; ran sprint planning and stakeholder reviews with technical and non-technical audiences.

Experience (continued)

Lead Business Analyst, Counterparty Credit Risk

October 2019 to October 2020

Credit Suisse, India

- Led agile delivery for the **Counterparty Credit Risk data team** through post-Brexit regulatory transition; aligned risk, data and IT on reporting change.
- Maintained MI dashboard suite for **data-driven credit risk decisions** across complex portfolios.
- Delivered regulatory reporting solutions for post-Brexit EU and UK compliance frameworks; supported **data quality and reconciliation** in credit risk data flows.

Senior technical business analyst

2016 to October 2018

HSBC and Credit Suisse, India

Credit risk and capital calculations across OTC and exchange-traded derivatives, swaps, bonds, equities and securities.

- End-to-end **data lineage, governance and reconciliation** across product portfolios for risk management and **capital calculations**.
- Wrote BRDs and FRDs for **CCR, EAD and CVA** in UK (PRA), US (Fed/SEC) and Switzerland (FINMA) jurisdictions; built logical data models and system design from requirements to IT implementation.
- Worked with Regulatory Managers on **Basel Pillar 3** disclosure validation; supported **RWA** optimisation and capital impact analysis.
- Aligned downstream reporting with **BCBS 239** as bridge between risk teams and engineering squads; improved **source-to-target mapping** and data quality for risk engines.

Systems engineer to business analyst

2013 to 2016

Standard Bank of South Africa via Nihilent Technologies, India

- Systems analyst on **financial data architecture, risk systems and regulatory reporting pipelines** in a regulated banking setup.
- Turned business and risk needs into technical specifications; worked between business units and engineering on **data integrity and lineage**.
