ING Belgium

Re: Product Owner & Senior Risk Data Journey Expert, Credit Infrastructure

Dear ING Hiring Team,

I am applying for the **Product Owner & Senior Risk Data Journey Expert role in Credit Infrastructure**. I am highly motivated to bring my banking experience from **Credit Suisse, HSBC, Standard Bank and KBC** to ING. This role matches how I have worked for years: lead squads on credit risk engine delivery, stay close to the data landscape, and partner with Risk, Data Management and IT.

I bring 13 years in regulated banking and six years in product ownership and squad leadership. My domain depth is credit and market risk: credit risk engines, PD, EAD, LGD, CCR, CVA, RWA and regulatory reporting. I built that at HSBC, Credit Suisse and Standard Bank, then at KBC in Brussels on Basel IV and AnaCredit calculation engines for NBB and ECB. I own backlogs, run agile delivery, and work comfortably with auditors and senior stakeholders. Since November 2024 at iosting I lead delivery enablement and squads on investment banking credit risk programmes.

I am a Belgium resident and will return from India shortly. I am **legally authorized to work in Belgium and do not need a work permit**. I am available for an interview and happy to walk through my experience in person to show my fit for this role.

Yours sincerely,

Anjish Bhondwe
