

Anjish Bhondwe

Senior Scrum Master · AI Governance · AI Program Delivery · Regulated Financial Services

Belgian residence A card · anjish.bhondwe@gmail.com · +32 489 858 959 · linkedin.com/in/anjish · anjishbhondwe.com

Professional Summary

Senior Scrum Master for AI programs in regulated financial services. I run Agile delivery for analytics, AI and GenAI work where experimentation, data readiness and governance sit in the same room as Product and engineering. I practise AI Scrum Master ways of working and embed AI governance into how squads plan, build, test and release. Recent work: at iosttring I am Senior Scrum Master and Agile Delivery lead for financial-services clients on AI squads under AI governance; at KBC I coached AI and regulated banking squads, including Kate Coin onboarding in the KBC App under ECB rules. Servant leader: clear backlogs with Product Owners, impediments and dependencies removed, delivery health visible in KPIs, and steady collaboration with offshore partners.

Core Skills

- AI Scrum Master delivery for AI, GenAI and advanced analytics squads in regulated financial services
- AI governance in delivery: controlled release, security, risk, compliance and operational sustainability (EU AI Act context)
- Agile frameworks: Scrum, SAFe, Kanban; ceremonies, flow, decision making and servant leadership
- Product Owner partnership: backlog quality, intake structuring, initiative breakdown for iterative delivery
- Impediment, risk, issue and dependency management across product, data, engineering, architecture, security, risk and business
- Delivery health KPIs: velocity, capacity, flow metrics, transparency and data-driven improvement
- Psychological safety, change management and delivery maturity with outsourced and offshore partners
- Scrum Master community of practice and continuous evolution of ways of working across the tribe
- Tooling: Jira, Confluence, Miro, CI/CD and enterprise delivery platforms

Experience

Director of Agile Delivery & Transformation · Senior Scrum Master

November 2024 to present

iosttring Technology and Consulting · Belgium and India

Financial-services clients · AI program delivery · Agile CoE · India operation lead since September 2025

- Senior Scrum Master for AI development squads on financial-services client work: AI Scrum Master practices, experimentation-friendly flow, and controlled delivery under AI governance.
- Enable reliable delivery of AI, advanced analytics and GenAI initiatives for regulated financial clients while keeping enterprise standards, security, risk and compliance in view.
- Embed AI governance into squad planning, build, test and release so innovation stays inside bank-grade controls.
- Coach autonomy, accountability and delivery maturity; facilitate Agile ceremonies; partner with Product Owners on backlog quality and intake breakdown for iterative delivery.
- Identify and remove impediments, risks and dependencies with product, data, engineering and business stakeholders; monitor delivery health with capacity, velocity and flow KPIs.
- Work daily with offshore partners in India on transfer of activities and run versus change balance so local squads stay on change and the target vision.
- Built the Agile Center of Excellence and a Scrum Master / Product Owner community of practice that evolves ways of working across client tribes.
- Since September 2025 I have combined primary family care with this Director role.

Senior Scrum Master · Agile Program Lead

September 2021 to October 2024

KBC Bank and Verzekering · Brussels and Leuven, Belgium

Regulated banking tribe · Belgium, Hungary, Czech Republic, Bulgaria and India

- Senior Scrum Master for cross-functional squads (analysis, development, testing, data science, DevOps) in a high-governance banking tribe; coached self-organization, psychological safety and continuous improvement.
- Coached an AI development squad on Kate Coin onboarding in the KBC App under ECB constraints: experimentation, data readiness, AI-backed product delivery and regulated release discipline.
- Partnered with Product Owners on prioritised, high-quality backlogs; structured intake and broke initiatives into iterative delivery slices aligned to tribe commitments.
- Managed dependencies, risks and issues across product, data, engineering, risk and compliance; reported delivery health at tribe SteerCo reviews.

Experience (continued)

Senior Scrum Master · Agile Program Lead

September 2021 to October 2024

KBC Bank and Verzekering · Brussels and Leuven (continued)

- Coordinated 50+ onshore-offshore members with India partners: transfer of activities and lifecycle management offshore so local squads could implement the target vision.
- Protected squads from distraction; used Jira and engineering tooling for automated unit and functional testing and continuous integration on Basel IV, AnaCredit and GDPR programmes.
- Supported change management as squad maturity grew across five countries in a regulated financial environment; contributed to Scrum Master ways of working across the tribe.

Product Owner

October 2020 to September 2021

UST Global for Uplight · India, USA and Canada

- Owned product backlog and release plan for a multi-country data platform; ran Scrum ceremonies and iterative discovery with a three-country squad.

Lead Agile Business Analyst

October 2019 to October 2020

Credit Suisse · India

Investment banking: counterparty credit risk data squad through post-Brexit regulatory change.

- Supported agile delivery for a regulated risk-data squad; removed impediments and managed risk and issues across business, risk and technology.
- Used Jira and MI dashboards for transparent, data-driven delivery reporting on complex credit portfolios.

Business Analyst / Product Owner

June 2018 to September 2019

HealthRFID, Geelong, Australia

- Shaped end-to-end process journeys with stakeholders and engineering; cut friction in regulated workflows through iterative delivery.

Senior Technical Business Analyst to Systems Engineer

2013 to 2018

HSBC, Credit Suisse and Standard Bank (via Nihilent), India

- Grew from systems engineering into business analysis on regulated banking programmes: credit risk technology, reporting and data quality across UK, US, Swiss and South African contexts.
- Bridged risk, business and engineering on BCBS 239 data quality, capital and regulatory reporting work in high-governance environments.

Certifications

AISM (AI Scrum Master), Scrum Alliance · SAFe SSM (PSM I equivalent) · CSPO · Scrum Alliance Member · ICAgile ICP-ACC · ICP-ENT · SAFe PMPO · AIGP (AI Governance Professional) · IAPP member

Education

- AI Regulation and the EU AI Act, KU Leuven, Dec 2025 to Jan 2026
- Design Thinking and Digital Transformation, IBMI Berlin, 2021
- MBA, Information Technology, RGIMT, 2019 to 2021
- B.E. Information Technology, Savitribai Phule Pune University, 2009 to 2013
