Re: Squad Lead, Delivery Enablement (job 9320)

Dear Euroclear Hiring Team,

I am applying for the Squad Lead, Delivery Enablement role in the EB settlement tribe. A few reasons I fit:

- At KBC I was the Delivery Lead across a five-country setup, ran a 50-plus person onshore and offshore team on Liquidity Reporting, and delivered the GDPR implementation for Corporate and Retail Banking.
- I set up and own the parts that keep delivery predictable: ways of working, governance, KPIs and SteerCo reporting.
- When delivery got stuck, I was the escalation point, and I kept the reporting windows under Basel IV and AnaCredit.
- At iosting I run intake, capacity and outsourcing partners for the India operation, so demand shaping and vendor work are day-to-day for me.
- I am in Belgium from October, I need no work permit, and I work in English with working Dutch.

On the domain, I know securities and derivatives from the investment banking side. At Credit Suisse and HSBC I worked on counterparty credit risk and market risk regulatory reporting.

Happy to talk it through.

Yours sincerely,

Anjish Bhondwe
