Euroclear, Group Business Solutions, EB settlement tribe

Re: Squad Lead, Delivery Enablement (job 9320)

Dear Euroclear Hiring Team,

I am applying for the Squad Lead, Delivery Enablement role in the EB settlement tribe. I set ways of working, keep demand and capacity in balance, and step in when delivery is blocked.

My banking background runs across KBC, Credit Suisse, HSBC and Standard Bank of South Africa. At KBC in Brussels and Leuven I spent four years on Liquidity Reporting under Basel IV and AnaCredit, delivered the GDPR implementation for Corporate and Retail Banking, and coached the team that built Kate Coin under ECB constraints. Before that, at Credit Suisse and HSBC, I worked in investment banking on securities and derivatives, counterparty credit risk and market risk regulatory reporting. I am an IAPP member for GDPR Practices and AI Governance, and I hold AIGP.

On leadership, at KBC I was Delivery Lead in a five-country setup. I led delivery of the unit with multiple squads and trains, owned the delivery KPIs and SteerCo reporting, and was the escalation point when delivery got stuck. I managed performance, hiring, skills development and relationships with outsourcing partners. Since November 2024 I have been Director for Agile Delivery Excellence at iostoring, where I built a delivery enablement practice and an Agile Center of Excellence. I run the India operation since September 2025.

For this role at Euroclear, I bring the same intake, capacity and governance work I do every day: shape demand across squads, architecture, testing and programmes, track delivery health, and give senior stakeholders a clear picture with mitigations when risks show up. The financial markets context from my banking work, securities, derivatives and regulatory reporting, sits close to what the EB settlement tribe does.

I am available in Brussels from October, I do not need a work permit, and I work in English with working Dutch. I would welcome a conversation.

Yours sincerely,

Anjish Bhondwe
