Professional Summary

Enterprise Risk Planning leader with 13 years in regulated banking. I bring three strengths the role needs together: strong **business domain** in risk and regulatory banking, **Agile / Scrum project management** and people leadership across **EMEA** teams, and a broad **data and AI** technical spectrum. I write **strategic documents, roadmaps and target operating models**, gather and document **IT business requirements** into technology solutions, and present recommendations to **senior management, governance committees and regulators**. At KBC I led delivery between Risk, IT and Data Management across Belgium, Hungary, Czech Republic and Bulgaria under **BCBS 239, Basel IV, AnaCredit, GDPR and EU / EBA** pressure. Hands-on across risk and data platforms including **SQL, Python, Power BI, Azure, GitHub and AI / GenAI**, and also Oracle, SAS, Moody's, Qlik Sense / QlikView and Collibra. IAPP member, currently completing **AIGP**.

Core Skills

Project management / Agile: proven programme and project delivery · Scrum · SAFe · PI planning · intake and capacity · dependency and risk management · hybrid delivery under regulatory deadlines

Strategy and operating model: strategic documents · roadmaps · target operating models · Risk Technology Strategy · Risk Data Strategy · CoE build · investment framing for leadership

Requirements to technology: gather, analyse and document IT business requirements · BRD · FRD · solution design · data models · source-to-target mapping · implementation with engineering

Senior communication: SteerCo · senior management packs · governance committees · regulator-facing programme artefacts · clear recommendations

Cross-functional leadership: Risk · IT · Data Management · EMEA multi-country teams · competing priorities · influence without owning every team

Risk, data and regulation: BCBS 239 · Basel Pillar 3 / Basel IV · AnaCredit · GDPR · EU / EBA · CCR · EAD · CVA · RWA · data governance · data stewardship · lineage · quality · reconciliation

Data and technology tools: SQL · Python · Power BI · Azure · GitHub · AI / GenAI · plus Oracle · SAS · Moody's · Qlik Sense / QlikView · Collibra · wider analytics and risk-platform landscapes

People: coaching · hiring · performance · onshore-offshore partners · India operation leadership

Experience

Director, Agile Delivery Excellence

November 2024 to present

iostring Technology and Consulting, India

Regulated financial services clients · India operation lead since September 2025

- Wrote strategic documents for leadership: transformation **roadmap** and **target operating model** covering intake, capacity, ceremonies, metrics and escalation across product, engineering and business operations.
- Built the Agile Center of Excellence and installed practical **Scrum and SAFe** project management standards used by squads in live delivery.
- Run project intake and capacity end to end, and settle competing stakeholder requests against real people and calendar limits.
- Present recommendations to leadership on delivery health, risks and mitigations; unblock architecture, testing and programme issues when squads stall.
- Apply **AI / GenAI** in delivery with governance in mind, aligned with my IAPP membership and AIGP certification in progress; work with engineering on modern delivery tooling including **GitHub**.
- Lead the India operation since September 2025: people management, performance, hiring, skills and outsourcing partners.

Delivery Lead, Liquidity Reporting

September 2021 to October 2024

KBC Bank and Verzekering, Brussels and Leuven

EMEA delivery across Belgium, Hungary, Czech Republic and Bulgaria. Worked between Risk, Data Management and IT on Enterprise Risk reporting programmes.

- Led **Agile / Scrum** project delivery for squads and trains across EMEA: PI planning, dependency management, and portfolio control against regulatory deadlines.
- Owned intake, capacity and prioritisation across Risk, IT and Data Management when several workstreams competed for the same teams.
- Prepared and delivered presentations and recommendations for **SteerCo, senior management and governance forums**, including analytics packs built with **Power BI**.

Experience (continued)

Delivery Lead, Liquidity Reporting

September 2021 to October 2024

KBC Bank and Verzekering, Brussels and Leuven (continued)

- Ran **data governance** and catalogue delivery, including data stewardship with delivery teams, and partnered with engineering on **Azure** and wider risk-data landscapes for reporting.
- Delivered **GDPR** implementation for Corporate and Retail Banking next to data-heavy regulatory reporting under **Basel IV and AnaCredit** (EU / EBA context).
- Led and coached people across the federated EMEA setup, including onshore-offshore partners, performance and hiring.
- Coached the squad that shipped Kate Coin under ECB constraints, keeping technology, risk controls and governance in one plan.

Product Owner and Manager, Carbon Zero

October 2020 to September 2021

UST Global for Uplight, India (US, Canada and India)

- Owned the product roadmap, backlog and release plan, and put priority recommendations in front of the product director and VP of engineering.

Lead Business Analyst, Risk Data

October 2019 to October 2020

Credit Suisse, India

Counterparty credit risk data, post-trade data quality and settlement lifecycle during post-Brexit regulatory change.

- Gathered, analysed and documented **IT business requirements** for risk data quality and reconciliation, then translated them into technology solutions with engineering.
- Owned data lineage and data governance end to end, kept MI ready for senior risk leaders, and drove issue remediation when bad data blocked reporting.

Business Analyst and Solution Architect

2018 to 2019

Sunlife Insurance via ITC Infotech India

- Ran Customer 360 requirements, SOPs and onsite delivery through release across business and IT.

Senior Technical Business Analyst, Risk Technology

2016 to October 2018

HSBC and Credit Suisse, India

Financial risk data for OTC and exchange-traded derivatives. Bridge between Risk and engineering across risk engines, databases and analytics platforms.

- Wrote BRDs and FRDs for CCR, EAD and CVA across UK (PRA), US (Fed / SEC) and Switzerland (FINMA), then took them through data models into IT implementation.
- Ran data lineage, governance and reconciliation with **SQL and Python**, and worked across risk and analytics stacks including Oracle, SAS, Moody's and Qlik where the programme required it.
- Worked with Regulatory Managers on Basel Pillar 3 disclosure packs for governance and regulator review, and aligned reporting design with **BCBS 239** across Risk, Data Management and engineering.

Systems Engineer to Business Analyst

2013 to 2016

Standard Bank of South Africa via Nihilent Technologies, India

- Built specifications for risk systems and regulatory reporting pipelines, covering data integrity and lineage between business units and engineering.

Certifications

ICAgile ICP-ACC · ICAgile ICP-ENT · SAFe SSM · SAFe PMPO · CSPO · IAPP member · AIGP (AI Governance Professional) in progress

Education

MBA, Information Technology, RGIMT, 2019 to 2021 · B.E. Information Technology, Savitribai Phule Pune University, 2009 to 2013

Design Thinking and Digital Transformation, IBMI Berlin, 2021 · AI Regulation and the EU AI Act, KU Leuven, Dec 2025 to Jan 2026

Languages

English (full professional) · Dutch (working proficiency) · French (basic) · German (basic)
