Professional Summary

Senior Scrum Master and People Manager for complex change in regulated financial services and wholesale markets. I lead Scrum delivery end to end: sprint planning, daily stand-ups, reviews and retrospectives, while coaching teams that are still growing in Agile maturity. I work closely with Product Owners on intake, backlog priority and conflict resolution, and I engage stakeholders outside the squad on how to support delivery. Recent work: at KBC I was Senior Scrum Master and People Manager / Team Lead for a 5-country delivery train / tribe with 100+ onshore-offshore members; at iosting I lead Agile delivery for financial-services clients across local and offshore teams. Investment banking depth at Credit Suisse and HSBC includes bonds and credit risk under CRO / CFO verticals, counterparty credit risk, and settlement-related regulated delivery. Comfortable in matrix environments with senior and junior colleagues, using Agile and waterfall across requirements, design, build, test, acceptance and launch.

Core Skills

- Senior Scrum Master leading up to two Scrum teams, local and offshore, with people management / team leadership
- Wholesale financial markets: bonds, credit risk under CRO / CFO, investment banking and settlement-related regulated delivery
- Hybrid and offshore team leadership; onshore-offshore coordination and transfer of activities
- Product Owner partnership: intake of new requests, backlog priority, conflict resolution and change navigation
- Agile coaching and Scrum maturity growth where Agile practices are still evolving
- Stakeholder engagement outside the Scrum team: Agile ways of working and delivery support
- Project governance and organisation: scope of deliverables, responsibilities, timelines, staffing and resource allocation
- Medium to large-scale delivery across full lifecycle: requirements, design, build, testing, acceptance and launch
- Agile and waterfall methodologies in complex IT change; matrix management with senior and junior colleagues
- Collaboration with Product Owner, sponsors, customers and Enterprise / Application Architects on feasibility
- Risk, issue and dependency management; business, technical, organisational and financial oversight of change
- Tooling: Jira, Confluence, Miro, CI/CD and enterprise delivery platforms

Experience

Director of Agile Delivery & Transformation · Senior Scrum Master

November 2024 to present

iosting Technology and Consulting · Belgium and India

Financial-services clients · local and offshore Scrum teams · Agile CoE · India operation lead since September 2025

- Senior Scrum Master for financial-services client delivery: lead Scrum ceremonies, coach Agile maturity, and keep intake and backlog healthy with Product Owners across change initiatives.
- Lead hybrid local and offshore teams; plan timelines, staffing and resource allocation across project phases; oversee business, technical and delivery aspects of assigned change.
- Engage stakeholders outside the squad on Agile ways of working; define governance and responsibilities so delivery stays clear in a matrix environment.
- Collaborate with Product Owners and architecture partners on backlog feasibility within strategic context; monitor delivery health against agreed targets.
- Built the Agile Center of Excellence and a Scrum Master / Product Owner community of practice across client tribes.
- Since September 2025 I have combined primary family care with this Director role.

Senior Scrum Master & People Manager / Team Lead

September 2021 to October 2024

KBC Bank and Verzekering · Brussels and Leuven, Belgium

5-country delivery train / tribe · Belgium, Hungary, Czech Republic, Bulgaria and India · 100+ onshore-offshore members

- Senior Scrum Master and People Manager / Team Lead for a 5-country delivery train / tribe; led multiple Scrum teams locally and offshore and coordinated 100+ onshore-offshore members.
- Defined and coordinated Scrum roles; led sprint planning, daily stand-ups, sprint reviews and retrospectives; coached Scrum maturity in a regulated banking tribe still strengthening Agile practice.

Experience (continued)

Senior Scrum Master & People Manager / Team Lead

September 2021 to October 2024

KBC Bank and Verzekering · Brussels and Leuven (continued)

- Worked with Product Owners on intake, backlog priority and conflict resolution; guided stakeholders outside the squad on how to support delivery.
- Owned delivery governance across business, technical and managerial aspects of regulated change (Basel IV, AnaCredit, GDPR); reported progress and risk at tribe SteerCo reviews.
- Planned timelines, staffing and resources across project phases; coordinated transfer of activities and lifecycle management with India partners so local squads stayed on change.
- Delivered medium to large-scale change through requirements, design, build, test, acceptance and launch using Agile practice with waterfall-style programme controls where needed.
- Coached an AI-backed digital product squad on Kate Coin onboarding in the KBC App under ECB constraints.

Product Owner

October 2020 to September 2021

UST Global for Uplight · India, USA and Canada

- Owned product backlog and release plan for a multi-country data platform; ran Scrum ceremonies and iterative discovery with a three-country squad.

Lead Agile Business Analyst · Investment Banking Credit Risk

October 2019 to October 2020

Credit Suisse · India

Wholesale / investment banking · Bonds and credit risk under CRO / CFO vertical · Counterparty credit risk data through post-Brexit change.

- Supported agile delivery for an investment banking credit risk squad covering bonds and counterparty credit risk under the CRO / CFO vertical; removed impediments across Risk, Finance, business and technology.
- Turned credit risk and bond-portfolio requirements into delivery-ready backlog; kept MI and audit artefacts decision-ready for senior risk leaders through post-Brexit transition.
- Used Jira and MI dashboards for transparent delivery reporting across complex credit and bond portfolios in a matrix wholesale-markets environment.

Business Analyst / Product Owner

June 2018 to September 2019

Sun Life Insurance, Geelong, Australia

- Shaped end-to-end process journeys with stakeholders and engineering; cut friction in regulated workflows through iterative delivery.

Senior Technical Business Analyst to Systems Engineer · Investment Banking

2013 to 2018

HSBC, Credit Suisse and Standard Bank (via Nihilent), India

- Wholesale / investment banking delivery across bonds, OTC and exchange-traded derivatives, equities and securities: credit risk technology, reporting, data quality and settlement-related regulated workflows across UK, US, Swiss and South African contexts.
- Bridged Risk, CRO-aligned stakeholders, business and engineering on BCBS 239 data quality, capital calculations and regulatory reporting; experience with UK market and bond settlement contexts in high-governance environments.
- Delivered change across full lifecycle with Agile squad practice and waterfall programme controls from requirements through launch.
