

Anjish Bhondwe

AGILE TEAM MANAGER · SCRUM MASTER · DELIVERY ENABLEMENT LEAD

Email: freelanceanjish@gmail.com Phone: +32 489 858 959 LinkedIn: [linkedin.com/in/anjish](https://www.linkedin.com/in/anjish)

Location: Brussels, Belgium (open to relocating to Amsterdam) Languages: English (fluent)

PROFESSIONAL SUMMARY

Agile team leader and certified Scrum Master with **13+ years in regulated, engineering-driven organisations**, leading cross-functional Scrum teams that ship cloud, data and platform products. I take **end-to-end accountability for team performance and results**, coach engineers and Product Owners, facilitate Scrum, and raise teams to their next maturity level. A servant leader and self-starter, I remove impediments, give the organisation clear transparency through SteerCo reporting, and stay technically hands-on with **cloud, DevOps, CI/CD and infrastructure**. Comfortable in remote-first, multi-country teams (one Agile rollout ran across five countries) and driven by continuous improvement, for the team and myself.

HOW I MATCH THE AGILE TEAM MANAGER ROLE

Coaching & mentoring: coached data-engineering, data-science and platform squads to lasting Agile maturity.

- **People management:** led a 50+ person onshore-offshore organisation, incl. performance conversations and enablement.
- **Facilitate Scrum:** SAFe SSM, CSPO, ICP-ACC/ENT; run Scrum events and agile practices daily.
- **Partner with the Product Owner:** former Product Owner myself; validate delivery roadmaps with business stakeholders.
- **Transparency to the organisation:** owned SteerCo reporting on delivery health and mitigations.
- **Technical focus:** hands-on with GCP/AWS cloud, microservices, CI/CD, DevOps and data platforms.

CORE SKILLS

- Agile leadership:** Scrum, Scrum@Scale, SAFe, Flight Levels, Kanban
- Facilitation:** Scrum events, workshops, dependency & impediment removal
- Product partnership:** PO collaboration, roadmap validation, OKRs, backlog
- Technical affinity:** Cloud (GCP, AWS), CI/CD, DevOps, microservices, APIs
- Ways of working:** remote-first, multi-country, onshore-offshore teams

- Team management:** coaching, mentoring, performance appraisals, hiring
- Team maturity:** high-performance culture, self-organisation, flow metrics
- Stakeholder mgmt:** SteerCo reporting, transparency, cross-team collaboration
- Domains:** hosting/infra data platforms, financial services, IaaS delivery
- Tooling:** Jira, Confluence, Miro, Mattermost, Teams, Zoom

PROFESSIONAL EXPERIENCE

Freelance Agile Delivery & Enterprise Delivery Enablement Lead — [iostring](#) Oct 2024 – Present
Technology & Consulting

Brussels, Belgium · regulated financial services

- Lead Agile scaling and delivery across multi-team engagements, taking **accountability for team performance and results**.
- Built an Agile Centre of Excellence from scratch: **coach-the-coach structures, coaching and mentoring paths**, and team-maturity practices adopted by client programmes.
- Defined governance foundations and cluster rhythms that **bring teams to the next maturity level** and foster collaboration across teams.
- Reported cluster delivery health with clear mitigation proposals at every SteerCo, giving the organisation **transparency and visibility**.

Verzekering

Brussels, Belgium · teams across Belgium, Hungary, Czechia, Bulgaria & India (remote-first)

- **Facilitated Scrum and agile practices** for cross-functional data, data-science and platform squads; drove lasting Agile maturity through hands-on coaching.
- Led delivery enablement and day-to-day management of a **50+ member onshore-offshore organisation** (KBC Liquidity Reporting), building a high-performance, collaborative team culture.
- **Teamed with Product Owners** and business stakeholders to validate roadmaps and keep delivery aligned to outcomes.
- Coached the team through delivery of **Europe's first blockchain-based, AI-backed digital coin (Kate Coin)** under strict ECB constraints.
- Stayed technically involved across **Cloud transformation, DevOps and CI/CD** workstreams and regulatory calculation engines (Basel IV, AnaCredit) — no missed reporting windows.

Product Owner & Product Manager — Carbon Zero Data Platform — Uplight Inc Oct 2020 – Sep 2021 (via UST Global)

Remote · teams across USA, Canada & India

- Owned a data platform on **Google Cloud**: turned targets into a live roadmap, release plan and OKRs the squads executed against.
- Ran product decisions across three countries, keeping data architects, scientists and engineers on **one shared definition of done** so features shipped.
- Held investment/prioritisation conversations with the Product Director and VP Engineering — sharpening my Product-Owner partnership perspective.

Lead Agile Business Analyst — Counterparty Credit Risk — Credit Suisse Oct 2019 – Sep 2021

Pune, India

- Led Agile delivery for a credit-risk data team through post-Brexit regulatory transition, removing impediments and keeping delivery flowing.
- Maintained an MI dashboard suite enabling data-driven risk decisions across complex portfolios.

Senior Business Analyst & Agile Lead — Education Horizons Group (via ITC Infotech) 2018 – 2019

Melbourne, Australia

- Led a digital transformation that lifted **platform adoption from below 30% to above 80%** via Agile delivery and change management.
- Stabilised release cycles and aligned delivery with **AWS engineering practices**; delivered a microservices + CI/CD proof of concept presented to the CTO.

Systems Engineer → Senior Agile Business Analyst — HSBC · Credit Suisse · Standard Bank Sep 2013 – Oct 2018

India / South Africa / UK

- Progressive delivery career across major banks, growing from engineering into Agile team leadership on regulated, infrastructure-heavy programmes.

SELECTED HIGHLIGHTS & ONGOING WORK

Human Agile Model (agilefragile.com) — my own framework for building high-performance teams without burning people out; a "human gate" and maturity index that works with Scrum or SAFe. • Track record on board- and regulator-scrutinised programmes: **1st blockchain digital coin in Europe**, 5-country Agile rollout, 30% → 80% platform adoption, 50+ person org enabled.
