

Anjish Bhondwe

Delivery Leader · Regulated Financial Services

freelanceanjish@gmail.com +32 489 858 959 [linkedin.com/in/anjish](https://www.linkedin.com/in/anjish) [anjishbhondwe.com](https://www.anjishbhondwe.com)

Available in Brussels from October. I do not need a work permit for Belgium.

Delivery leader with 13 years in regulated banking, insurance and financial markets. I lead delivery enablement in agile setups with squads and trains: intake and capacity, governance and SteerCo reporting, dependency and risk management, and escalation when delivery blocks. At KBC in Brussels I ran a multi-squad unit across four EU countries under Basel IV, AnaCredit and GDPR. At iosttring I built the delivery enablement practice and Agile Center of Excellence. Earlier roles at Credit Suisse, HSBC, Standard Bank and Sunlife Insurance add depth in securities, derivatives, regulatory reporting and insurance data programmes.

Experience

Director for Agile Delivery Excellence

November 2024 to present

iostring Technology and Consulting, India (running the India operation since September 2025)

I set up the delivery enablement and coaching practice, and I run the India side of the business.

- Built delivery enablement and an Agile Center of Excellence: standard ways of working, Scrum and SAFe practices, governance foundations and coach-the-coach paths across product, engineering and business operations.
- Run intake and capacity: capture demand, clarify scope, route work to squads, and keep priorities balanced against available capacity.
- Work with product owners, scrum masters and chapter leads on backlog quality, ceremonies, flow metrics and dependency tracking.
- Track delivery health (cycle time, throughput, dependencies) and report to leadership with clear mitigations.
- Act as escalation point when delivery is blocked; coordinate across architecture, testing and programme management.
- Manage the India operation: people management, performance, hiring, skills development and relationships with outsourcing partners.

Delivery Lead

September 2021 to October 2024

KBC Bank and Verzekering, Brussels and Leuven

Delivery Lead in a regulated banking setup across four EU countries.

- Led delivery of the Liquidity Reporting unit with multiple squads and trains across four EU countries, using agile and hybrid delivery with PI planning, tribe ceremonies and SteerCo reporting.
- Owned intake and capacity for the unit; coordinated product owners, scrum masters, architects, testers and programme managers on dependencies and risks.
- Owned delivery KPIs and SteerCo reporting for tribe leadership; was the escalation point when squads were blocked.
- Kept regulatory reporting windows under Basel IV and AnaCredit; delivered GDPR implementation for Corporate and Retail Banking.
- Coached the squad that delivered Kate Coin, a digital bank coin built under ECB constraints.
- Managed performance, development, hiring and relationships with onshore-offshore and outsourcing partners.

Product owner and manager, Carbon Zero

October 2020 to September 2021

UST Global for Uplight, India (team across the US, Canada and India)

Owned a sustainability data product on Google Cloud end to end.

- Turned targets into a live roadmap, release plan and backlog the squads could work from.
- Ran the priority and investment conversations directly with the product director and VP of engineering.

Lead agile business analyst and coach

October 2019 to October 2020

Credit Suisse, India

Investment banking: counterparty credit risk data through post-Brexit change, covering securities and derivatives.

- Led agile delivery for a data-heavy risk team; kept management information and audit artefacts ready for senior risk leaders.

Business analyst and solution architect

2018 to 2019

Sunlife Insurance via ITC Infotech India

- Insurance domain: gathered requirements and created SOPs for Customer 360 digital transformation at Sunlife Insurance.
- Owned end-to-end onsite delivery from requirements through development, implementation and release.

Systems engineer to senior agile business analyst

2016 to October 2018

HSBC and Credit Suisse, India

- Regulated investment banking at HSBC and Credit Suisse: credit risk and market risk regulatory reporting.

Systems engineer to business analyst

2013 to 2016

Standard Bank of South Africa via Nihilent Technologies, India

- Standard Bank of South Africa via Nihilent Technologies: systems engineering into delivery and business analysis on regulated banking programmes.

Skills and certifications

Delivery enablement and agile: squads and trains, Scrum and SAFe, hybrid delivery, PI planning, intake and capacity, governance and SDLC, delivery KPIs and SteerCo reporting, dependency and risk management, escalation, working with product owners and scrum masters, people management across locations, outsourcing partners.

Domain and data in regulated markets: banking and financial markets, insurance (Customer 360), securities and derivatives, liquidity reporting (Basel IV, AnaCredit), counterparty credit risk and market risk regulatory reporting, GDPR and data governance, ECB-scrutinised programmes.

Certifications: ICAgile ICP-ACC and ICP-ENT, SAFe SSM and PMPO, CSPO, AIGP, IAPP member for GDPR Practices and AI Governance.

Education

- MBA, Information Technology, RGIMT, 2019 to 2021
- B.E. Information Technology, Savitribai Phule Pune University, 2009 to 2013
- Design Thinking and Digital Transformation, IBMI Berlin, 2021
- AI Regulation and the EU AI Act, TU Delft and KU Leuven

Languages

English (full professional), Dutch (working proficiency), German (basic).
