

Anjish Bhondwe

Senior Scrum Master · AI Program Delivery · Servant Leader · Regulated Banking

Belgian residence A card · anjish.bhondwe@gmail.com · +32 489 858 959 · linkedin.com/in/anjish · anjishbhondwe.com

Professional Summary

Senior Scrum Master for AI and analytics delivery in regulated financial services. I coach one or more squads inside a tribe, keep Agile values alive, and adapt ways of working to data and AI realities: experimentation, data readiness, model uncertainty and stronger governance. Servant leader by practice: focus, transparency, collaboration and continuous improvement without needing formal authority. I partner with Product Owners on clear, prioritised backlogs, remove impediments and dependencies across product, data, engineering, architecture, security, risk and business, and report delivery health with Agile KPIs. Hands-on with outsourced and offshore partners in India. Earlier work at Credit Suisse and HSBC covered risk, settlement and regulatory reporting in investment banking. Certifications: AISM (AI Scrum Master), SAFe SSM (PSM-equivalent), CSPO, ICAgile ICP-ACC / ICP-ENT, AIGP. Strong English for local and offshore teams. Banking path: KBC, Credit Suisse, HSBC and Standard Bank.

Core Skills

- Senior Scrum Master / Agile Delivery Lead for complex technology and AI programs
- Agile frameworks: Scrum, SAFe, Scrum@Scale, Kanban, Lean; ceremonies, flow and decision making
- Servant leadership: influence without authority, psychological safety, team dynamics, conflict resolution
- AI, GenAI and advanced analytics delivery: experimentation cycles, iterative discovery, data dependencies
- Enterprise standards with controlled AI delivery: governance, security, risk, compliance and operational sustainability
- Product Owner partnership: backlog quality, intake structuring, initiative breakdown for iterative delivery
- Impediment, risk, issue and dependency management across organisational boundaries
- Delivery health KPIs: velocity, capacity, flow metrics, transparency and data-driven improvement
- Collaboration with outsourced and offshore partners; change management and delivery maturity growth
- Scrum Master community of practice and continuous evolution of ways of working across the tribe
- Regulated financial services: retail, corporate and investment banking under high governance expectations
- Tooling: Jira, Confluence, Miro, CI/CD and DevOps delivery platforms (Jira and similar enterprise delivery platforms)

Certifications

AISM (AI Scrum Master), Scrum Alliance · SAFe SSM (PSM I equivalent) · CSPO · Scrum Alliance Member · ICAgile ICP-ACC · ICP-ENT · SAFe PMPO · AIGP (AI Governance Professional) · IAPP member

Experience

Director of Agile Delivery & Transformation · Senior Scrum Master

November 2024 to present

iostring Technology and Consulting · Belgium and India

AI program delivery · Agile CoE · India operation lead since September 2025

- Senior Scrum Master for AI development squads: AI Scrum practices (AISM), experimentation-friendly flow, and controlled release under AI governance (AIGP, EU AI Act).
- Enable reliable delivery of AI, advanced analytics and GenAI-style initiatives while keeping enterprise standards, security and compliance in view.
- Coach autonomy, accountability and delivery maturity; facilitate Agile ceremonies; partner with Product Owners on backlog quality and intake breakdown for iterative delivery.
- Identify and remove impediments, risks and dependencies with product, data, engineering and business stakeholders; monitor delivery health with capacity, velocity and flow KPIs.
- Work daily with offshore partners in India on transfer of activities and run versus change balance so local squads stay on change and the target vision.
- Built the Agile Center of Excellence and a Scrum Master / Product Owner community of practice that evolves ways of working across client tribes.
- Since September 2025 I have combined primary family care with this Director role.

Senior Scrum Master · Agile Program Lead

September 2021 to October 2024

KBC Bank and Verzekering · Brussels and Leuven, Belgium

Regulated banking tribe · Belgium, Hungary, Czech Republic, Bulgaria and India

- Scrum Master for cross-functional squads (analysis, development, testing, data science, DevOps) in a high-governance banking tribe; coached self-organization, psychological safety and continuous improvement.
- Coached an AI development squad on Kate Coin, an AI-backed digital bank coin in the KBC App under ECB constraints: experimentation, data readiness and regulated release discipline.

Experience (continued)

Senior Scrum Master · Agile Program Lead

September 2021 to October 2024

KBC Bank and Verzekering · Brussels and Leuven (continued)

- Partnered with Product Owners on prioritised, high-quality backlogs aligned to business outcomes; structured intake and broke initiatives into iterative delivery slices aligned to tribe commitments.
- Managed dependencies, risks and issues across product, data, engineering, risk and compliance; reported delivery health and risk at tribe SteerCo reviews.
- Coordinated 50+ onshore-offshore members with India partners: transfer of activities, lifecycle management offshore, so local squads could implement the target vision.
- Protected squads from distraction; used Jira and engineering tooling for automated unit and functional testing and continuous integration on Basel IV, AnaCredit and GDPR programmes.
- Supported change management as squad maturity grew across five countries in a regulated financial environment.

Product Owner

October 2020 to September 2021

UST Global for Uplight · India, USA and Canada

- Owned product backlog and release plan for a multi-country data platform; ran Scrum ceremonies and iterative discovery with a three-country squad.

Lead Agile Business Analyst

October 2019 to October 2020

Credit Suisse · India

Investment banking: counterparty credit risk data squad through post-Brexit regulatory change.

- Supported agile delivery for a regulated risk-data squad; removed impediments and managed risk and issues across business, risk and technology.
- Used Jira and MI dashboards for transparent, data-driven delivery reporting on complex credit portfolios.

Business Analyst / Product Owner

June 2018 to September 2019

HealthRFID, Geelong, Australia

- Shaped end-to-end process journeys with stakeholders and engineering; cut friction in regulated workflows through iterative delivery.

Senior Technical Business Analyst to Systems Engineer

2013 to 2018

HSBC, Credit Suisse and Standard Bank (via Nihilent), India

- Grew from systems engineering into business analysis on regulated banking programmes: credit risk technology, reporting and data quality across UK, US, Swiss and South African contexts.
- Bridged risk, business and engineering on BCBS 239 data quality, capital and regulatory reporting work in high-governance environments.

Education

-
- AI Regulation and the EU AI Act, KU Leuven, Dec 2025 to Jan 2026
 - Design Thinking and Digital Transformation, IBMI Berlin, 2021
 - MBA, Information Technology, RGIMT, 2019 to 2021
 - B.E. Information Technology, Savitribai Phule Pune University, 2009 to 2013

Languages

English (full professional, local and offshore teams) · Dutch (working proficiency) · French (basic)
