Professional Summary

Thirteen years across KBC, Credit Suisse, HSBC and Standard Bank. In each bank my decisions sat with business, functional and technical teams, and delivery ran with multi-regional, multicultural squads. Strong on the credit risk engine ecosystem, SA / A-IRB / F-IRB approaches and regulatory reporting, including BCBS 239, COREP, IFRS 9, AnaCredit, GDPR and EU / EBA. At KBC I led EMEA delivery across liquidity reporting and related risk programmes, Kate Coin and GDPR, coached the Agile delivery vertical, and kept budget and capacity in view.

Core Skills and Technical Stack

Core Skills		Technical Stack	
• Agile / Scrum project management across programmes and trains • IT business requirements turned into technology solutions • Intake, capacity and competing priorities across departments • Stakeholder influence across Risk, IT and Data Management	• Strategic documents, roadmaps and target operating models • Presentations to senior management, governance and regulators • Risk, data governance, BCBS 239 and EU / EBA frameworks • Risk Technology Strategy · Risk Data Strategy · SA · A-IRB · F-IRB · COREP · IFRS 9	SQL Power BI GitHub Oracle Moody's Collibra	Python Azure AI / GenAI SAS Qlik Sense / QlikView

Domain depth: credit risk engines · Basel IV · AnaCredit · GDPR · Second Line of Defence · lineage · quality · reconciliation · CCR · EAD · CVA · RWA · PD · LGD · BRD · FRD · SteerCo · Regulatory Managers · EMEA multi-country teams

Experience

Director, Agile Delivery Excellence

iostring Technology and Consulting, India

November 2024 to present

- Regulated financial services clients · India operation lead since September 2025
- Wrote the transformation roadmap and target operating model for delivery across product, engineering and business operations.
 - Built the Agile Center of Excellence and coached the delivery vertical on Scrum and SAFe standards used in live delivery.
 - Run intake, capacity and priority calls across business, Product and IT when stakeholders compete for the same people.
 - Present delivery health, risks and recommendations to leadership; unblock architecture, testing and programme issues.
 - Bring AI / GenAI into delivery with governance in mind, working with engineering on modern tooling including GitHub.
 - Lead the India operation: people management, performance, hiring, skills and outsourcing partners.

Delivery Lead

KBC Bank and Verzekering, Brussels and Leuven

September 2021 to October 2024

- EMEA delivery across Belgium, Hungary, Czech Republic and Bulgaria. Day to day with business, architects, Product, IT, Risk, Data Management and Regulatory Managers.
- Led Agile delivery for multi-country squads and trains: liquidity reporting epic plus wider credit risk and regulatory reporting across SA, A-IRB and F-IRB approaches and the credit risk engine ecosystem.
 - Partnered with Regulatory Managers on regulatory reporting under Basel IV and AnaCredit, and kept business, functional and technical decisions joined up.
 - Led Kate Coin development under ECB constraints, and led GDPR implementation for Corporate and Retail Banking.
 - Kept budgets and capacity in view when several workstreams competed across countries and cultures.

Experience (continued)

Delivery Lead

September 2021 to October 2024

KBC Bank and Verzekering, Brussels and Leuven (continued)

- Prepared and delivered SteerCo and senior management presentations, including Power BI packs with recommendations.
- Coached the Agile delivery vertical, and stayed heavily involved with business, architects, Product and IT on delivery excellence and value creation.
- Ran data governance and catalogue delivery with stewardship, and partnered with engineering on Azure and wider risk-data landscapes.
- Led and coached people across the federated EMEA setup, including onshore-offshore partners, performance and hiring.

Product Owner and Manager, Carbon Zero

October 2020 to September 2021

UST Global for Uplight, India (US, Canada and India)

- Owned roadmap, backlog and release plan, and put priority recommendations in front of the product director and VP of engineering.

Lead Business Analyst, Risk Data

October 2019 to October 2020

Credit Suisse, India

Counterparty credit risk data, IFRS 9, BCBS 239 and Brexit impact work across Credit Suisse entities.

- Gathered, analysed and documented IT business requirements for risk data quality and reconciliation, then translated them into technology solutions with engineering.
- Delivered BCBS 239 and IFRS 9 data and reporting work with Risk, Data Management and IT, including lineage, governance and remediation.
- Led analysis of Brexit impact on Credit Suisse entities and kept MI decision-ready for senior risk leaders.

Business Analyst and Solution Architect

2018 to 2019

Sunlife Insurance via ITC Infotech India

- Ran Customer 360 requirements, SOPs and onsite delivery through release across business and IT.

Senior Technical Business Analyst, Risk Technology

2016 to October 2018

HSBC and Credit Suisse, India

Credit risk engine ecosystem and regulatory reporting across OTC and exchange-traded derivatives. Business, functional and technical teams were always part of the same decision set.

- Wrote BRDs and FRDs for CCR, EAD and CVA across UK (PRA), US (Fed / SEC) and Switzerland (FINMA), then took them into IT implementation.
- At HSBC, worked COREP and related regulatory reporting with Regulatory Managers and engineering.
- At Credit Suisse, aligned risk data and reporting design with BCBS 239 across Risk, Data Management and engineering.
- Ran data lineage, governance and reconciliation with SQL and Python across Oracle, SAS, Moody's and Qlik landscapes.

Systems Engineer to Business Analyst

2013 to 2016

Standard Bank of South Africa via Nihilent Technologies, India

Three years on retail banking product systems and the risk / regulatory reporting stack behind them. Work sat between business and IT from the start.

- Moved from Systems Engineer to Business Analyst on retail banking product-backed systems used by business, operations and technology.
- Built and supported risk and regulatory reporting pipelines, including data integrity checks, lineage and reconciliation into capital and reporting outcomes.
- Designed data flows and tooling around collateral, margin and settlement timelines that fed risk and regulatory reporting.
- Wrote technical specifications from business needs, and kept business, functional and technical stakeholders aligned through delivery.

Certifications

ICAgile ICP-ACC · ICAgile ICP-ENT · SAFe SSM · SAFe PMPO · CSPO · IAPP member · AIGP (AI Governance Professional) in progress

Education
