Euroclear, Group Business Solutions, EB settlement tribe

Re: Squad Lead, Delivery Enablement (job 9320)

Dear Euroclear Hiring Team,

I am applying for the Squad Lead, Delivery Enablement role in the EB settlement tribe. Delivery enablement is what I already do. I help squads deliver rather than deliver for them.

For three years at KBC I led delivery enablement across a five-country setup of about 3,000 people and managed a 50-plus person onshore and offshore organisation on Liquidity Reporting. I set the ways of working and the governance, owned the KPIs and the SteerCo reporting, coordinated architects, testing and programmes, ran the dependency and risk reviews, and was the escalation point when delivery got stuck, all under Basel IV and AnaCredit reporting deadlines. I now run the delivery enablement practice and the India operation at iostring, including intake, capacity and outsourcing partners.

I have not worked in securities settlement itself, but I know regulated financial delivery well and I get up to speed on a domain quickly. I work in English and have working proficiency in Dutch.

I am available from October and I do not need a work permit for Belgium.

I would welcome a conversation about the role.

Yours sincerely,

Anjish Bhondwe
