ING Belgium

Re: Product Owner & Senior Risk Data Journey Expert, Credit Infrastructure

Dear ING Hiring Team,

I am applying for the **Product Owner & Senior Risk Data Journey Expert role in Credit Infrastructure**. The split between leading an agile squad and shaping the credit risk data landscape matches how I have worked for years.

Most of my depth is in the same domain as your team. At **HSBC and Credit Suisse** I spent six years in **credit risk and market risk**: CCR, EAD, CVA, RWA, collateral and margin, OTC and exchange-traded derivatives, and post-trade data flows. I wrote BRDs and FRDs for risk engines, owned data lineage and source-to-target mapping, and worked with Regulatory Managers on Basel Pillar 3 and BCBS 239 reporting. At Credit Suisse I led the **Counterparty Credit Risk data team** through post-Brexit change and owned data quality and reconciliation across securities, CDS and RWAs. At **Standard Bank** I worked on risk systems and regulatory reporting pipelines in a regulated African banking setup.

At KBC in Brussels I owned the **Basel IV and AnaCredit calculation engine backlog** for **NBB and ECB** reporting and worked daily with risk, data management and IT. At iostriing I coach product owners and squads and work closely with clients in the **investment banking domain** on credit risk and regulatory delivery.

I am a Belgium resident and will return from India shortly. I am **legally authorized to work in Belgium and do not need a work permit**. I work in English and Dutch. I would welcome a conversation about how I can help your Credit Infrastructure team.

Yours sincerely,

Anjish Bhondwe
