ING Belgium · Digital / Private Individuals

Re: Squad Master / Product Owner · Private Individuals Onboarding (DBCF)

Dear ING Hiring Team,

I am applying for Squad Master on Private Individuals Onboarding. Most of my career is banking. Bank names first: KBC Bank and Verzekering (Brussels and Leuven, four years, EMEA squads), Credit Suisse, HSBC and Standard Bank. That is the ground I want to use at ING: bank processes, customer impact, Risk and compliance in the same room as Product and engineering.

At KBC I ran multi-country squads across Belgium, Hungary, Czech Republic and Bulgaria. I owned the roadmap with Product, used KPI packs for SteerCo decisions, cleared dependencies, and delivered under GDPR and ECB constraints on programmes such as liquidity reporting and Kate Coin. Day to day I worked with journey partners, Risk, data and compliance. At Credit Suisse I led risk-data and regulated delivery work with Risk, Data Management and IT. At HSBC and Standard Bank I worked credit risk technology and reporting from BRDs into implementation across UK, US, Swiss and South African contexts. At Uplight I was Product Owner for a multi-country digital product. At iosting I am Director of Agile Delivery & Transformation and I still coach banking-facing squads. Certifications: CSPO, SAFe SSM, SAFe PMPO. AIGP in progress.

I already have a Belgian residence A card, so I can start when you need me. I work in English and Dutch. Happy to talk about the onboarding squad with your Customer Journey Experts.

Yours sincerely,

Anjish Bhondwe
