SUMMARY

Program and project manager with 13 years leading complex, multi-team delivery in regulated banking and technology. I set governance, planning and reporting that keep programmes predictable, and manage risk, dependencies and budgets with stakeholders up to C-level (programmes across up to five countries). I lead by setting clear standards and removing blockers, and I work directly across Product, Delivery and clients. Founded and run an Agile Center of Excellence. Delivery spans AWS and GCP; hold EU AI Act and AIGP credentials and use AI tools in delivery.

CORE SKILLS

Delivery & governance: Program & project management · Delivery governance & SDLC · Reporting, delivery metrics & flow · Risk, dependency & budget management · Agile (SAFe, Scrum, Lean) and Waterfall

Cloud & AI: Cloud delivery (AWS, GCP) · Data governance & Collibra · Data & risk programmes · AI governance: EU AI Act, Responsible AI, AIGP · AI-supported delivery

Stakeholders & ways of working: C-level stakeholder management & alignment · Multiplier / enabling leadership · Leading without formal authority · Decisive on difficult calls · Cross-functional facilitation (Product, Customer Success, Delivery) · Client-facing · Fast domain ramp-up

EXPERIENCE

Founding Director & Director, Agile Center of Excellence

November 2024 – Present

iostring Technology and Consulting · India (leading India operations since Sep 2025)

- Founded and run the Agile Center of Excellence across Business Operations, Product Management and IT Engineering.
- Own program governance and the transformation backlog against measurable outcomes: cycle time, lead time, flow and dependency health.
- Run planning, budgeting and commercial administration for the India operation, including project setup and invoicing.
- Coach leaders and delivery teams to own their outcomes through playbooks and communities of practice.
- Use AI tools in delivery and coaching, and encourage teams to adopt them.

Agile Program Lead & Enterprise Agile Coach

Sep 2021 – Oct 2024

KBC Bank and Verzekering · Brussels & Leuven, Belgium

- Led delivery across data engineering, data science, platform, DevOps and product squads in a five-country matrix.
- Built the delivery governance and metrics used in SteerCo and senior leadership reviews for Liquidity Reporting and related portfolios.
- Managed risks, dependencies and escalations across risk, business and technology, and held squads to one delivery plan across time zones.
- Ran data governance and catalogue delivery with Collibra for regulated banking programmes, connecting stewardship, metadata and delivery teams.
- Led the delivery team for Kate Coin, a digital bank coin built under ECB constraints (KBC newsroom / Finextra, 2022).

Product Owner & Manager

Oct 2020 – Sep 2021

UST Global (Uplight Inc.) · India

- Owned Carbon Zero on Google Cloud (GCP) end to end: vision, roadmap, release decisions and go-to-market for a multi-country product.
- Agreed capacity and investment trade-offs directly with the Product Director and VP Engineering.

Lead Agile Business Analyst & Coach

Oct 2019 – Oct 2020

Credit Suisse · India

- Steered Counterparty Credit Risk data delivery through post-Brexit change; kept MI and audit artefacts decision-ready for senior risk leaders (2,500+ in scope).
- Aligned business, risk and technology on data definitions and ownership with Collibra.

Business Analyst / Solution Architect

2018 – 2019

Sunlife Insurance via ITC Infotech India

- Gathered business requirements and created SOPs for the insurance domain to drive Customer 360 digital transformation.
- Owned end-to-end delivery onsite: requirements, development, implementation and release.

Systems Engineer to Senior Agile Business Analyst

2016 – Oct 2018

HSBC · Credit Suisse · India

- Grew into delivery analysis on regulated investment banking programmes across HSBC and Credit Suisse.

Systems Engineer to Business Analyst

2013 – 2016

Standard Bank of South Africa via Nihilent Technologies · India / South Africa

- Worked for Standard Bank of South Africa via Nihilent Technologies as their trusted consulting partner, from systems engineering into delivery and business analysis on regulated banking programmes.
