Returning Belgian resident. Based in Belgium; open to hybrid roles in Belgium and the Netherlands. No work permit required.

Professional Summary

Delivery Director with 13 years leading **large-scale technology programmes (150-200 FTE)** in regulated industries. At **KBC** in Brussels I led a **four-country programme** (Belgium, Hungary, Czech Republic, Bulgaria) with **end-to-end delivery** accountability, **SteerCo governance**, client stakeholder management and **distributed teams** across product owners, architects, engineers and QA. Since November 2024 at **iostring** in the **Benelux** I built the **delivery enablement practice and Agile Center of Excellence** and lead **150-200 FTE client programmes**. I bring hands-on **AI and GenAI** experience (**AIGP**, EU AI Act, AI-backed platform delivery) and technical depth to challenge **architecture, integration and data design** with senior engineering stakeholders.

Core Skills

Delivery leadership: End-to-end delivery · Large-scale engagements (100+ FTE, 150-200 FTE) · SDLC · Agile and SAFe · IT service management · Delivery plans · Risk mitigation · Financial and compliance accountability · Distributed and onshore-offshore teams

Client and commercial: Client relationships at project, programme and governance levels · SteerCo and tribe leadership · Issue escalation · Pre-sales and proposal support · Statements of work and intake planning · Account growth

Technology and architecture: Microservices · APIs · Cloud and data platforms · Event-driven and integration design · Architecture review · Delivery diagnostics · DevOps and CI/CD

AI and GenAI: Machine Learning and Generative AI programme delivery · LLM governance impact on scope and risk · AI/GenAI integration dependencies · Ethical AI, bias and privacy · Advanced analytics and data science squads

Experience

Director for Agile Delivery Excellence

November 2024 to present

iostring Technology and Consulting · Benelux

Enterprise delivery enablement for regulated financial services clients · India operation lead since Sep 2025

- Built the **delivery enablement practice and Agile Center of Excellence** from scratch; lead **end-to-end delivery** on **150-200 FTE Benelux client programmes**.
- Drive delivery from initiation through the lifecycle: **intake and capacity**, scope clarification, **delivery plans**, governance rhythms and SteerCo reporting with clear risk mitigations.
- Manage **client relationships** at programme and governance levels; escalation point when delivery, architecture or integration issues block progress.
- Collaborate with **product owners, architects, engineers and QA** on estimates, planning, dependencies and reliable delivery across distributed teams.
- Embed **AI and GenAI governance** into delivery practices; advise clients on scope, resource and risk impact of ML, Generative AI and LLM components.
- Support **pre-sales and proposal preparation** with delivery planning, capacity views and credible technical engagement with senior stakeholders.
- Since Sep 2025, lead the India operation: people management, hiring, performance and outsourcing partners.

Delivery Lead

September 2021 to October 2024

KBC Bank and Verzekering, Brussels and Leuven

Four-country regulated technology programme: Belgium, Hungary, Czech Republic and Bulgaria (150-200 FTE).

- Led **end-to-end delivery** for the **four-country federated programme (150-200 FTE)**; owned **delivery KPIs**, SteerCo reporting and programme governance for tribe leadership.
- Managed **client and stakeholder relationships** across business, risk, compliance and IT; identified issues early and mitigated engagement risks on regulatory deadlines.
- Coordinated **product owners, architects, engineers, testers and programme managers** across multiple activity streams aligned with **SDLC** and agile delivery.
- Delivered **cloud, data platform and DevOps** programmes including GDPR transformation; coached data engineering, data science and platform squads.
- Governed delivery of **Kate Coin**, an AI-backed digital banking product under ECB constraints; kept complex technology change on track under audit scrutiny.
- Owned intake, capacity and portfolio prioritisation; managed outsourcing partners, hiring and performance across the federated Benelux setup.

Experience (continued)

Product owner and manager, Carbon Zero

October 2020 to September 2021

UST Global for Uplight, USA, Canada and India

- Led a **data platform programme on Google Cloud** with data architects, data scientists and engineers across USA, Canada and India; owned roadmap, backlog and release planning.
- Partnered with product director and VP Engineering on investment decisions, scope trade-offs and delivery across distributed teams.

Senior Business Analyst and Agile Lead

June 2018 to September 2019

Education Horizons Group, Australia via ITC Infotech

- Led a **digital transformation** programme: **microservices and CI/CD on AWS**, cloud proof of concept presented to CTO at SteerCo; improved platform adoption from below 30% to above 80%.

Lead Business Analyst to senior delivery roles

2013 to October 2020

Credit Suisse, HSBC, Standard Bank and Sunlife via consulting partners

- Complex technology and regulatory programmes at tier-1 banks and insurers: agile delivery, stakeholder management, integration and data design in regulated environments.

Certifications

-
- AIGP (Artificial Intelligence Governance Professional), IAPP
 - ICAgile ICP-ACC and ICP-ENT
 - SAFe SSM, PMPO and Agile Coach
 - CSPO (Certified Scrum Product Owner)
 - IAPP member, GDPR Practices and AI Governance

Education

-
- AI Regulation and the EU AI Act, KU Leuven, Dec 2025 to Jan 2026
 - MBA, Information Technology, RGIMT, 2019 to 2021
 - B.E. Information Technology, Savitribai Phule Pune University, 2009 to 2013
 - Elements of AI / Diploma in Artificial Intelligence
