Professional Summary

People and delivery leader with 13 years across regulated environments in banking and health technology. I lead, coach and develop multidisciplinary teams, build sustainable staffing through hiring and retention, and keep capacity, workload and planning tight enough for reliable delivery. Strong in Agile maturity, collaboration with Product Owners, Scrum Masters and technical stakeholders, and the assertiveness needed to arbitrate priorities without losing trust. Background as Business Analyst, Product Owner and Solution Architect in regulated settings, including HealthRFID (Geelong) and banks such as KBC, Credit Suisse, HSBC and Standard Bank. At KBC I led EMEA Agile delivery across countries, coached the delivery vertical, and owned people outcomes with budget and capacity oversight.

Core Skills

- People leadership: coaching, engagement, talent development, performance and retention
- Building sustainable teams: recruitment, onboarding, staffing and skills growth
- Reliable delivery environment: capacity, workload, planning and dependency management
- Agile adoption and maturity across squads, trains and delivery verticals
- Engineering and quality practices, ownership, autonomy and accountability
- Partnership with Product Owner, Scrum Master and technical stakeholders
- Alignment across Talent Managers, system / component teams and communities of practice
- Business Analyst · Product Owner · Solution Architect experience in regulated environments

Technical Stack

Agile · Scrum · SAFe · backlog and PI planning · SQL · Git / GitHub · CI/CD · Azure · AWS · BPMN · Power BI · Python · Jira / Confluence · presentation and SteerCo packs

Experience

Founder & Director · Agile Leader

November 2024 to present

iostring Technology and Consulting, India

Founder-led firm · people leadership · Agile research and delivery · based in India since September 2025

- Lead the organisation as Founder and Director: people management, performance, hiring, skills development and partner staffing.
- Coach Agile ways of working, run Agile research, and raise delivery maturity on Scrum and SAFe used in live teams.
- Built a sustainable delivery setup through intake, capacity and priority calls when stakeholders compete for the same people.
- Wrote the transformation roadmap and target operating model for product, engineering and business operations.
- Present delivery health and recommendations to leadership; unblock collaboration between Product, engineering and business.
- Since September 2025, after relocating to India for the birth of my second child, I have given primary care to my family while continuing as Director of iostring.

Delivery Lead

September 2021 to October 2024

KBC Bank and Verzekering, Brussels and Leuven

EMEA multidisciplinary delivery across Belgium, Hungary, Czech Republic and Bulgaria. Day to day with Product, Scrum Masters, architects, engineering, business and Risk.

- Led, coached and developed people across federated EMEA squads and trains, including performance, hiring and onshore-offshore partners.
- Built a reliable delivery environment through capacity, workload and planning discipline when several workstreams competed.
- Raised Agile maturity and coached the delivery vertical; partnered closely with Product Owners, Scrum Masters and technical stakeholders.
- Kept engineering and quality expectations visible in delivery, and fostered ownership and accountability across countries and cultures.

Experience (continued)

Delivery Lead

September 2021 to October 2024

KBC Bank and Verzekering, Brussels and Leuven (continued)

- Aligned with peer leads and system teams on dependencies, and contributed to cross-team delivery improvements.
- Prepared SteerCo and senior management presentations with clear recommendations on risks, capacity and delivery health.
- Led regulated delivery workstreams (liquidity reporting, Kate Coin under ECB constraints, GDPR) where quality and compliance mattered as much as speed.

Product Owner and Manager, Carbon Zero

October 2020 to September 2021

UST Global for Uplight, India (US, Canada and India)

- Owned roadmap, backlog and release plan, and put priority recommendations in front of the product director and VP of engineering.
- Facilitated collaboration between Product, engineering and business so the team could deliver with clearer ownership.

Lead Business Analyst, Risk Data

October 2019 to October 2020

Credit Suisse, India

- Turned IT business requirements into technology solutions with engineering in a tightly regulated banking environment.
- Worked across Risk, Data Management and IT on data quality, lineage and remediation for decision-ready MI.

Business Analyst / Product Owner

June 2018 to September 2019

HealthRFID, Geelong, Australia

Regulated health-technology products: RFID-enabled specimen tracking and clinical supply-chain systems. Multidisciplinary delivery with clinical operations, Product and engineering.

- Acted as Business Analyst / Product Owner on health-technology delivery: shaped requirements, process design and acceptance criteria for regulated clinical and lab workflows.
- Turned clinical and operational needs into prioritised backlog items and delivery plans engineering could execute with clear ownership.
- Partnered with stakeholders across Australia on quality, traceability and operational reliability so platform capabilities matched real clinical use.
- Worked day to day with Product and engineering on Agile cadence, release readiness and cross-discipline collaboration in a medical-technology setting.

Senior Technical Business Analyst, Risk Technology

2016 to October 2018

HSBC and Credit Suisse, India

- Wrote BRDs and FRDs and took solution design into IT implementation across UK, US and Swiss regulatory contexts.
- Operated as the bridge between business, functional and technical teams on credit risk engines and reporting delivery.

Systems Engineer to Business Analyst

2013 to 2016

Standard Bank of South Africa via Nihilent Technologies, India

- Moved from Systems Engineer to Business Analyst on product-backed systems, building the technical base behind later BA / PO leadership.

Certifications

ICAgile ICP-ACC · ICAgile ICP-ENT · SAFe SSM · SAFe PMPO · CSPO · IAPP member · AIGP (AI Governance Professional) in progress

Education

- MBA, Information Technology, RGIMT, 2019 to 2021
- B.E. Information Technology, Savitribai Phule Pune University, 2009 to 2013
- Design Thinking and Digital Transformation, IBMI Berlin, 2021
- AI Regulation and the EU AI Act, KU Leuven, Dec 2025 to Jan 2026
