

ANJISH BHONDWE

Agile Team Manager · Scrum Master · Delivery Enablement Lead

freelanceanjish@gmail.com · +32 489 858 959 · linkedin.com/in/anjish · anjishbhondwe.com · Brussels, Belgium (open to Amsterdam)

SUMMARY

Agile team leader and certified Scrum Master with 13+ years in regulated, engineering-driven organisations, leading cross-functional Scrum teams that ship cloud, data and platform products. I take end-to-end accountability for team performance, coach engineers and Product Owners, facilitate Scrum, and raise teams to their next maturity level. I remove impediments, give the organisation transparency through SteerCo reporting, and stay hands-on with cloud, DevOps and CI/CD. Comfortable in remote-first, multi-country teams; one Agile rollout ran across five countries.

CORE SKILLS

Agile leadership: Scrum · Scrum@Scale · SAFe · Flight Levels · Kanban

Team & delivery: Coaching · mentoring · performance management · hiring · high-performance culture · flow metrics

Facilitation & product: Scrum events · dependency & impediment removal · Product Owner collaboration · roadmap validation · OKRs · backlog

Technical & domains: Cloud (GCP, AWS) · CI/CD · DevOps · microservices · APIs · hosting / infrastructure & data platforms · financial services

Ways of working: Remote-first · multi-country · onshore-offshore · Jira, Confluence, Miro, Teams

EXPERIENCE

Freelance Agile Delivery & Enterprise Delivery Enablement Lead

Oct 2024 – Present

iostring Technology & Consulting · Brussels, Belgium · regulated financial services

- Lead Agile scaling and delivery across multi-team engagements, accountable for team performance and results.
- Built an Agile Centre of Excellence from scratch: coach-the-coach structures, coaching and mentoring paths, and team-maturity practices adopted by client programmes.
- Defined governance foundations and cluster rhythms that raise team maturity and cross-team collaboration.
- Reported cluster delivery health with clear mitigation proposals at every SteerCo.

Agile Program Lead / Scrum Master

Sep 2021 – Oct 2024

KBC Bank & Verzekering · Brussels, Belgium · teams across Belgium, Hungary, Czechia, Bulgaria & India (remote-first)

- Facilitated Scrum for cross-functional data, data-science and platform squads; drove lasting Agile maturity through hands-on coaching.
- Led delivery enablement and day-to-day management of a 50+ member onshore-offshore organisation (KBC Liquidity Reporting).
- Teamed with Product Owners and business stakeholders to validate roadmaps and keep delivery aligned to outcomes.
- Coached the team through delivery of Europe's first blockchain-based, AI-backed digital coin (Kate Coin) under ECB constraints.
- Stayed technically involved across cloud transformation, DevOps and CI/CD, and regulatory calculation engines (Basel IV, AnaCredit).

Product Owner & Product Manager · Carbon Zero Data Platform

Oct 2020 – Sep 2021

Uplight Inc (via UST Global) · Remote · USA, Canada & India

- Owned a data platform on Google Cloud: turned targets into a live roadmap, release plan and OKRs the squads executed against.
- Ran product decisions across three countries, keeping data architects, scientists and engineers on one shared definition of done.
- Held investment and prioritisation conversations with the Product Director and VP Engineering.

Lead Agile Business Analyst · Counterparty Credit Risk

Oct 2019 – Oct 2020

Credit Suisse · India

- Led Agile delivery for a credit-risk data team through post-Brexit regulatory transition, removing impediments and keeping delivery flowing.
- Maintained an MI dashboard suite enabling data-driven risk decisions across complex portfolios.

Senior Business Analyst & Agile Lead · Education Horizons Group

2018 – 2019

via ITC Infotech (AWS Platinum Partner) · Melbourne, Australia

- Led a digital transformation that lifted platform adoption from below 30% to above 80% through Agile delivery and change management.
- Stabilised release cycles, aligned delivery with AWS engineering practices, and delivered a microservices + CI/CD proof of concept presented to the CTO.

Systems Engineer to Senior Agile Business Analyst

Sep 2013 – Oct 2018

HSBC · Credit Suisse · Standard Bank · India / South Africa / UK

- Progressive delivery career across major banks, growing from engineering into Agile team leadership on regulated, infrastructure-heavy programmes.

CERTIFICATIONS

- SAFe Scrum Master (SSM) · Scaled Agile
- CSPO (Certified Scrum Product Owner) · Scrum Alliance
- ICP-ACC (ICAgile Certified Agile Coach) · ICP-ENT (Enterprise Agile Coaching) · ICAgile
- SAFe Product Manager / Product Owner (PMPO) · Scaled Agile
- AIGP (AI Governance Professional) · IAPP

EDUCATION

- MBA, Information Technology · RGIMT · 2019–2021
- B.E. Information Technology · SPP University, Pune · 2009–2013
- Design Thinking & Digital Transformation · IBM Berlin · 2021
- AI Regulation & the EU AI Act · TU Delft · KU Leuven

SELECTED HIGHLIGHTS

- Human Agile Model (agilefragile.com): my framework for building high-performance teams without burning people out; a "human gate" and maturity index that works with Scrum or SAFe.
- Track record on board- and regulator-scrutinised programmes: first blockchain digital coin in Europe, five-country Agile rollout, 30% to 80% platform adoption, 50+ person organisation enabled.
