

Anjish Bhondwe

Chapter Lead · Delivery Enablement · Scaled Agile / SAFe · Federated Operating Model

anjish.bhondwe@gmail.com · +32 489 858 959 · linkedin.com/in/anjish · Portfolio: anjishbhondwe.com

Professional Summary

Chapter-level Delivery Enablement leader with end-to-end ownership of Agile scaling implementation and rollout in federated operating models. I define delivery enablement strategy, deploy and govern practices, standards and methods across multi-country / pan-European IT delivery, and give leadership clear visibility on performance, capacity, risks and dependencies. At iosttring I built the enterprise Delivery Enablement practice and Agile CoE with organisation-wide mandate across Agile, Standards & Methods and quality-aligned ways of working. At KBC I owned Scaled Agile (SAFe) rollout and delivery enablement across a federated 5-country train / tribe (Belgium, Hungary, Czech Republic, Bulgaria and India) with 100+ onshore-offshore members, aligned to product and portfolio priorities under regulatory and financial planning constraints. As Interim SAFe Delivery Lead / RTE at Colruyt I ran ART-level scaling mechanics. Thirteen-plus years in large product and IT delivery organisations; MBA in IT; partner to product and IT leadership on delivery maturity.

Core Skills

- Enterprise Delivery Enablement leadership: strategy, frameworks, standards, methods and ways of working across IT
- End-to-end Agile scaling implementation and rollout in federated operating models (multi-entity, multi-country)
- Scaled Agile / SAFe: ARTs, trains, PI planning, RTE practice, consistency with flexibility across teams
- Chapter leadership of delivery-enabler profiles: Agile, Standards & Methods, quality and UX partnership
- Alignment of delivery capabilities with product strategy, portfolio priorities and financial planning cycles
- Delivery performance visibility: capacity, risks, dependencies, KPIs and SteerCo decision packs
- Governance of delivery processes, application lifecycle management and performance metrics
- Structuring and scaling delivery capabilities: teams, communities of practice and coach-the-coach models
- Continuous improvement from feedback, performance data and practical industry practice
- Disciplinary and technical leadership in complex cross-team and multi-country environments
- Stakeholder influence with product, portfolio and IT leadership; fluent English; Dutch working; French basic
- Tooling: Jira, Confluence, Miro, Power BI / delivery dashboards, Azure DevOps-class platforms

Experience

Director of Agile Delivery & Transformation · Enterprise Delivery Enablement

November 2024 to present

iosttring Technology and Consulting · Belgium and India

Enterprise Delivery Enablement · Agile CoE · Standards & Methods · India operation lead since September 2025

- Own end-to-end Delivery Enablement at enterprise level: built the practice and Agile Center of Excellence, then deployed and govern frameworks, standards and methods across product, engineering and business operations.
- Define and drive the delivery enablement strategy: Product Operating Model, common ways of working, playbooks and decision frameworks that scale while leaving room for team context.
- Lead implementation and continuous evolution of Scaled Agile / SAFe practices; structure delivery capabilities through communities of practice and coach-the-coach paths for Agile and Standards & Methods profiles.
- Partner with product and IT leadership on portfolio alignment, capacity and financial planning signals; provide visibility on delivery performance, risks and dependencies for decision-making.
- Govern delivery processes and lifecycle performance metrics; run continuous improvement from adoption data and delivery outcomes, not framework theatre.
- Lead and develop the India delivery operation (people, hiring, skills, outsourcing partners) as disciplinary leadership across a federated Belgium-India setup.

Interim SAFe Delivery Lead / RTE

October 2024 to June 2025

Colruyt Group · XTRA (via iosttring), Belgium

- Ran ART-level Scaled Agile delivery: PI planning, dependency coordination and leadership reporting on progress, risk and capacity.
- Translated product and portfolio priorities into measurable commitments and definition of done across squads.

Experience (continued)

Delivery Lead · Senior Scrum Master & People Manager / Team Lead

September 2021 to October 2024

KBC Bank and Verzekering · Brussels and Leuven, Belgium

Federated Scaled Agile rollout · 5-country delivery train / tribe · Belgium, Hungary, Czech Republic, Bulgaria and India · 100+ members

- Owned end-to-end Agile scaling implementation and rollout in a federated operating model: one Scaled Agile approach across decentralised country units, shared IT services and onshore-offshore delivery.
- Enterprise delivery enablement leadership for the train / tribe: intake and capacity, standards and ways of working, PI planning, dependency and risk management, escalation and SteerCo packs to leadership.
- Aligned delivery with product strategy, portfolio priorities and regulatory / financial planning cycles (Basel IV, AnaCredit, GDPR windows); kept capacity honest against deadlines.
- Provided clear visibility on delivery performance, capacity, risks and dependencies; drove continuous improvement from KPI and feedback data.
- Led, developed and coached delivery-enabler and delivery profiles (Scrum Masters, Product Owners, chapter partners) with both disciplinary and technical leadership across multi-country teams.
- Promoted end-to-end quality and customer value across the lifecycle, including Kate Coin onboarding in the KBC App under ECB constraints.
- Scaled sourcing and outsourcing-partner arrangements through clear transfer-of-activities and lifecycle governance in the federated model.

Product Owner

October 2020 to September 2021

UST Global for Uplight · India, USA and Canada

- Owned roadmap and release for a multi-country sustainability / energy-data product; aligned delivery with product director and engineering leadership across three countries.

Lead Agile Business Analyst · Investment Banking Credit Risk

October 2019 to October 2020

Credit Suisse · India

- Improved delivery process and decision MI for a regulated credit-risk and bonds squad under CRO / CFO; used metrics to surface process gaps through post-Brexit change.

Business Analyst / Product Owner

June 2018 to September 2019

Sun Life Insurance, Geelong, Australia

- Documented end-to-end process journeys and cut friction in regulated workflows; produced practical operational artefacts teams could adopt.

Senior Technical Business Analyst to Systems Engineer · Investment Banking

2013 to 2018

HSBC, Credit Suisse and Standard Bank (via Nihilent), India

- Built delivery craft in high-governance IT: standards for requirements, data quality (BCBS 239) and regulatory reporting across UK, US, Swiss and South African contexts.
- Bridged Risk, business and engineering with clear procedures and reusable documentation in large product organisations.

Certifications

SAFe SSM · SAFe PMPO · CSPO · ICAgile ICP-ACC · ICP-ENT · AISM (AI Scrum Master) · AIGP (AI Governance Professional) · IAPP member

Education

- MBA, Information Technology, RGIMT, 2019 to 2021
- B.E. Information Technology, Savitribai Phule Pune University, 2009 to 2013
- Design Thinking and Digital Transformation, IBMI Berlin, 2021
- AI Regulation and the EU AI Act, KU Leuven, Dec 2025 to Jan 2026

Languages

English (fluent) · Dutch (working proficiency) · French (basic) · German (basic exposure)
