

Anjish Bhondwe

VP Enterprise Risk Planning · Risk Technology Strategy · Risk Data Strategy · Delivery

freelanceanjish@gmail.com · +32 489 858 959 · linkedin.com/in/anjish · anjishbhondwe.com

Professional Summary

Enterprise Risk Planning leader with 13 years in regulated banking across Risk, IT and Data Management. I own **Risk Technology** and **Risk Data** roadmaps, write **target operating models**, and run **Agile / Scrum** delivery until risk tools and data are fit for decision-making. At KBC I led multi-country liquidity and regulatory programmes, prepared **SteerCo and senior management** packs, and delivered under **BCBS 239, Basel IV, AnaCredit, GDPR and EU / EBA** reporting pressure. At Credit Suisse and HSBC I gathered and documented **IT business requirements** for counterparty credit risk and capital data, and carried Second Line needs into engineering. Hands-on with **SQL, Python, Power BI, Azure, GitHub, AI / GenAI and Collibra**.

Core Skills

Enterprise Risk Planning: Risk Technology Strategy · Risk Data Strategy · BCBS 239 · data stewardship · Second Line of Defence · EU / EBA regulatory programmes

Project management: Agile · Scrum · SAFe · programme delivery · PI planning · intake and capacity · dependency and risk management

Strategy and operating model: strategic documents · roadmaps · target operating models · transformation backlog · investment cases for leadership

Requirements and solutions: IT business requirements · BRD · FRD · solution design · data models · source-to-target mapping · technology implementation

Governance and stakeholders: senior management · governance committees · SteerCo · regulators · Risk · IT · Data Management · competing priorities

Risk and data: CCR · EAD · CVA · RWA · Basel Pillar 3 · Basel IV · AnaCredit · GDPR · data quality · data lineage · reconciliation · Collibra

Tools: SQL · Python · Power BI · Azure · GitHub · AI · GenAI · Collibra · delivery metrics

Experience

Director, Agile Delivery Excellence

November 2024 to present

iostring Technology and Consulting, India

Regulated financial services clients · India operation lead since September 2025

- Wrote the transformation **roadmap** and **target operating model** for delivery: intake, capacity, ceremonies, metrics and escalation across product, engineering and business operations.
- Built the Agile Center of Excellence and installed practical **Scrum and SAFe** project management standards used by squads every day.
- Run project intake and capacity end to end: capture demand, prioritise, route work, and settle competing stakeholder requests against real capacity.
- Present recommendations to leadership on delivery health, risks and mitigations; unblock architecture, testing and programme issues when squads stall.
- Apply **AI / GenAI** in delivery work under governance expectations (AIGP), and work daily with **GitHub** alongside product and engineering.
- Lead the India operation since September 2025: people management, performance, hiring, skills and outsourcing partners.

Delivery Lead, Liquidity Reporting

September 2021 to October 2024

KBC Bank and Verzekering, Brussels and Leuven

Regulated banking tribe across Belgium, Hungary, Czech Republic and Bulgaria. Worked between Risk, Data Management and IT on Enterprise Risk reporting programmes.

- Led **Agile and Scrum** project delivery for squads and trains in four EU countries: PI planning, dependency management, and portfolio control against regulatory deadlines.
- Owned intake, capacity and prioritisation across Risk, IT and Data Management when several workstreams competed for the same people and calendar.
- Prepared and delivered **SteerCo and senior management** presentations in **Power BI**: KPIs, risks, mitigations and recommendations for governance forums.

Experience (continued)

Delivery Lead, Liquidity Reporting

September 2021 to October 2024

KBC Bank and Verzekering, Brussels and Leuven (continued)

- Ran **data governance** and catalogue delivery in **Collibra**, including data stewardship and metadata work with delivery teams, and partnered with engineering on **Azure** data landscapes for risk reporting.
- Delivered **GDPR** implementation for Corporate and Retail Banking next to data-heavy regulatory reporting under **Basel IV** and **AnaCredit** (EU / EBA context).
- Coached the squad that shipped Kate Coin under ECB constraints, keeping technology, risk controls and governance in one plan.
- Managed performance, hiring and onshore-offshore partners in a federated operating setup.

Product Owner and Manager, Carbon Zero

October 2020 to September 2021

UST Global for Uplight, India (US, Canada and India)

- Owned the product roadmap, backlog and release plan on Google Cloud, and put priority recommendations in front of the product director and VP of engineering.

Lead Business Analyst, Risk Data

October 2019 to October 2020

Credit Suisse, India

Counterparty credit risk data, post-trade data quality and settlement lifecycle during post-Brexit regulatory change.

- Gathered, analysed and documented **IT business requirements** for risk data quality and reconciliation, then translated them into technology solutions with engineering.
- Owned data lineage and data governance end to end, kept MI ready for senior risk leaders, and drove issue remediation when bad data blocked reporting.

Business Analyst and Solution Architect

2018 to 2019

Sunlife Insurance via ITC Infotech India

- Ran Customer 360 requirements, SOPs and onsite delivery through release across business and IT.

Senior Technical Business Analyst, Risk Technology

2016 to October 2018

HSBC and Credit Suisse, India

Financial risk data for OTC and exchange-traded derivatives. Bridge between Risk and engineering on capital and reporting data.

- Wrote BRDs and FRDs for CCR, EAD and CVA across UK (PRA), US (Fed / SEC) and Switzerland (FINMA), then took them through data models into IT implementation.
- Ran data lineage, governance and reconciliation with **SQL and Python**, including source-to-target mapping for capital and reporting data.
- Worked with Regulatory Managers on Basel Pillar 3 disclosure packs, and aligned reporting design with **BCBS 239** across Risk, Data Management and engineering.

Systems Engineer to Business Analyst

2013 to 2016

Standard Bank of South Africa via Nihilent Technologies, India

- Built specifications for risk systems and regulatory reporting pipelines, covering data integrity and lineage between business units and engineering.

Certifications

ICAgile ICP-ACC · ICAgile ICP-ENT · SAFe SSM · SAFe PMPO · CSPO · AIGP · IAPP (GDPR Practices and AI Governance)

Education

MBA, Information Technology, RGIMT, 2019 to 2021 · B.E. Information Technology, Savitribai Phule Pune University, 2009 to 2013

Design Thinking and Digital Transformation, IBMI Berlin, 2021 · AI Regulation and the EU AI Act, KU Leuven, Dec 2025 to Jan 2026

Languages

English (full professional) · Dutch (working proficiency) · French (basic) · German (basic)
