

POOJA AWASARE

15 Aug 1994

Email: poojaawasare@outlook.com
LinkedIn: [linkedin.com/in/poojaawasare](https://www.linkedin.com/in/poojaawasare)

Location: Pune, India

Languages: English (professional); German (B1); Dutch (A1/A2)

Education		
2018–2022	HTW Dresden (Hochschule für Technik und Wirtschaft), Germany Master of Engineering (M.Eng), Environmental Engineering <i>Thesis: Agile Project Management for Sustainable Construction Innovation</i>	2.8
2014–2017	Savitribai Phule Pune University, India Bachelor of Engineering (B.E), Civil Engineering <i>Structural design, project planning & environmental studies</i>	65.26%
2010–2014	Maharashtra State Board of Technical Education (MSBTE), India Diploma, Civil Engineering	68.11%
2010	Maharashtra State Board (MSBSHSE), India 10th Standard (Secondary School Certificate)	82.55%
Professional Experience and Training		
Jun'24 – Present	Career Break · Belgium & India Planned career break for parenting newborns, spanning relocation from Belgium to India. Alongside family responsibilities, maintained professional currency through independent study in circular construction and reverse logistics and GIS / geospatial and machine-learning (Google Earth Engine), preparing for design-science doctoral research.	
Aug'23 – Jun'24	Civil & Environmental Project Consultant, iosttring, Belgium - Consulted the IT engineering team on how civil construction projects are planned and managed within an Agile framework, aligning ways of working across civil and software teams. - Designed construction workflows for waste management and circular-economy processes, using project data to support material reuse and waste-reduction decisions.	
Nov'22 – Aug'23	Project Engineer, Hive CPQ, Ghent, Belgium - Managed large datasets and gathered requirements from manufacturers (Pellenc, Mecatherm, Soproda) and customers, integrating manufacturing, construction and supply-chain data into a data mart. - Built configurators that turned complex rules into intuitive digital tools, translating stakeholder needs into practical solutions for technical and non-technical users.	
Jun'22 – Nov'22	Project Engineer, Aug.e, Brussels, Belgium - Contributed to energy-transition and smart-building projects using a digital-twin stack (Microsoft Azure, Navisworks Manage, Neanex, Revit), organising and integrating data from physical assets into digital decision-support. - Worked with IoT, AI and metadata layers linking building and energy data to decisions, close to the data-integration mindset behind BIM and logistics parameters; tracked delivery in Azure DevOps.	
Aug'21 – Sep'21	Trainee (Master's Thesis), HTW Dresden, Germany Researched Agile project planning in an IT-sustainability setting aligned to UN Global Compact / SDG themes; gathered qualitative and quantitative requirements on environmental impacts (climate, waste, water, energy) and built product backlogs in Jira.	
Oct'19	Trainee, Fraunhofer Institute, Dresden, Germany Planned a green business model for biogas-to-biowax demand and adopted EU sustainability policy, assessing green-business financials and transformation tools.	

Technical Skills

Digital & BIM	Revit, Navisworks Manage, Neanex, AutoCAD; digital twins
Geospatial / GIS	Google Earth Engine, QGIS, ArcGIS, ERDAS Imagine
Data & analysis	Data modelling & integration, Tableau, MongoDB, Postman, Lucidchart, Excel
Project & Agile	Jira, Confluence, Asana, Miro, Azure DevOps, Primavera P6; Scrum, Kanban (PSK I)
Research methods	Design-science research, qualitative case studies, requirements engineering

Certifications

- Professional Scrum with Kanban (PSK I) · Scrum.org
- Google Earth Engine for Machine Learning & Change Detection
- Construction Management: Planning and Scheduling
- Primavera P6
- Excel Essential Training (Office 365 / Microsoft 365)

Publications

“Design and Analysis of Building by AKSES and Manual Method.”

Areas of Interest

- Circular construction: reuse, refurbishment and end-of-life material recovery
- Reverse logistics and construction supply chains
- Digital decision-support: BIM, GIS, digital twins and material passports
- Design-science research for sustainability and CO₂ reduction
