Euroclear, Group Business Solutions, EB settlement tribe

Re: Squad Lead, Delivery Enablement (job 9320)

Dear Euroclear Hiring Team,

I am applying for the Squad Lead, Delivery Enablement role in the EB settlement tribe. I want to work for a financial group that specialises in the settlement, clearing and safekeeping of domestic and international securities, and this role sits close to the delivery enablement work I have been doing since KBC and now at iosttring.

At KBC in Brussels I spent four years as Delivery Lead for a unit with squads and trains across four EU countries. I ran intake and capacity, worked with product owners and scrum masters, and owned the SteerCo picture tribe leadership needed. When delivery blocked, I was the escalation point. The programmes were data-heavy and regulated: Liquidity Reporting under Basel IV and AnaCredit, and GDPR for Corporate and Retail Banking.

Since November 2024 I have been Director for Agile Delivery Excellence at iosttring, where I built the delivery enablement practice and Agile Center of Excellence. I set the agile ways of working, run demand intake across squads, track flow and dependencies, and manage the India operation including outsourcing partners. Before KBC, I worked at Credit Suisse and HSBC in investment banking on securities, derivatives and regulatory reporting, and at Sunlife Insurance on a Customer 360 programme. Banking and insurance gave me the domain depth; KBC and iosttring gave me the delivery enablement leadership this role needs.

I have friends at Euroclear in Finance, Data and Public Communication, and that has helped me understand the culture of the organisation. I am in India at the moment and will be returning to Belgium. I can start from October, I do not need a work permit, and I work in English with working Dutch.

Yours sincerely,

Anjish Bhondwe
