

POOJA AWASARE

15 Aug 1994

Email: poojaawasare@outlook.com
Phone (BE): +32 489 858 959 · Phone (IN): +91 90968 90003
LinkedIn: [linkedin.com/in/poojaawasare](https://www.linkedin.com/in/poojaawasare)
Location: Pune, India
Languages: English (C1); German (B1); Dutch (A1/A2)

Education		
2018–2022	HTW Dresden (Hochschule für Technik und Wirtschaft), Germany Master of Engineering (M.Eng), Environmental Engineering	2.8
2014–2017	Savitribai Phule Pune University, India Bachelor of Engineering (B.E), Civil Engineering	65.26%
2010–2014	Maharashtra State Board of Technical Education (MSBTE), India Diploma, Civil Engineering	68.11%
2010	Maharashtra State Board (MSBSHSE), India 10th Standard (Secondary School Certificate)	82.55%

Professional Experience		
Jun'24 – Present	Career Break · Belgium & India Planned career break for parenting newborns, spanning relocation from Belgium to India. Alongside family responsibilities, maintained professional currency through independent study in circular construction and reverse logistics and GIS / geospatial and machine-learning (Google Earth Engine), preparing for design-science doctoral research.	
Aug'23 – Jun'24	Civil & Environmental Project Consultant, iostring, Belgium - Worked with a construction partner on a circular construction hypothesis: how Agile project management can bring circular practices into day-to-day delivery. - Helped the IT engineering team understand civil project planning and designed workflows for waste management and circular-economy processes.	
Nov'22 – Aug'23	Project Engineer, Hive CPQ, Ghent, Belgium - Managed large product and technical datasets from manufacturers such as Pellenc, Mecatherm and Soproda. - Turned complex client and manufacturer requirements into configurable digital solutions. - Built low-code configurators with JavaScript, with a focus on usability and easy client management. - Worked across data, stakeholder needs and digital solutions.	
Jun'22 – Nov'22	Project Engineer, Aug.e, Brussels, Belgium - Worked on smart-building and digital-twin projects that combined BIM with real-time building data. - Monitored live electricity-meter data for energy performance and building operations. - Used Revit, Navisworks and Neanex for BIM/model review and digital building information; supported data-driven energy management and sustainability work.	

Master's Thesis		
Aug'21 – Sep'21	Agile Project Management in the Construction Industry <i>HTW Dresden, Germany · Master of Engineering (Environmental Engineering)</i> - Explored how Agile can improve collaboration, continuous risk management, adaptive decision-making and resource efficiency in construction projects. - Worked in an IT-sustainability setting aligned to UN Global Compact / SDG themes; gathered requirements on environmental impacts (climate, waste, water, energy) and built product backlogs in Jira.	

Training		
Oct'19	Trainee, Fraunhofer Institute, Dresden, Germany Planned a green business model for biogas-to-biowax demand and adopted EU sustainability policy, assessing green-business financials and transformation tools.	

Technical Skills

Digital & BIM	Revit, Navisworks Manage, Neanex, AutoCAD; digital twins
Geospatial / GIS	Google Earth Engine, QGIS, ArcGIS, ERDAS Imagine
Data & analysis	Data modelling & integration, Tableau, MongoDB, Postman, Lucidchart, Excel
Project & Agile	Jira, Confluence, Asana, Miro, Azure DevOps, Primavera P6; Scrum, Kanban (PSK I)
Research methods	Design-science research, qualitative case studies, requirements engineering

Certifications

- Professional Scrum with Kanban (PSK I) · Scrum.org
- Google Earth Engine for Machine Learning & Change Detection
- Construction Management: Planning and Scheduling
- Primavera P6
- Excel Essential Training (Office 365 / Microsoft 365)

Publications

“Design and Analysis of Building by AKSES and Manual Method.”

Areas of Interest

- Circular construction: reuse, refurbishment and end-of-life material recovery
- Reverse logistics and construction supply chains
- Digital decision-support: BIM, GIS, digital twins and material passports
- Design-science research for sustainability and CO₂ reduction
