Professional Summary

Enterprise Risk Planning leader with 13 years across KBC, Credit Suisse, HSBC and Standard Bank. I bring the full set this role is built on: Agile / Scrum project management, strategic documents, roadmaps and target operating models, IT business requirements turned into technology solutions, and presentations to senior management, governance committees and regulators. I work across Risk, IT and Data Management, lead people and delivery across EMEA teams, and know risk management, data governance and regulatory frameworks including BCBS 239, Basel, AnaCredit, GDPR and EU / EBA. Hands-on across the data and technology spectrum used in risk, including SQL, Python, Power BI, Azure, GitHub and AI / GenAI, and also Oracle, SAS, Moody's, Qlik and Collibra. Business domain, Agile delivery and people leadership, and data / AI technical depth sit together in how I work.

Core Skills

Enterprise Risk Planning: Risk Technology Strategy · Risk Data Strategy · BCBS 239 · Basel IV · AnaCredit · GDPR · EU / EBA · Second Line of Defence · data stewardship

Project management: Agile · Scrum · SAFe · programme delivery · PI planning · intake and capacity · dependency and risk management

Strategy: strategic documents · roadmaps · target operating models · transformation backlog · investment framing

Requirements to solutions: IT business requirements · BRD · FRD · solution design · data models · source-to-target mapping

Stakeholders: SteerCo · senior management · governance committees · regulators · Risk · IT · Data Management · EMEA multi-country teams

Risk and data domain: CCR · EAD · CVA · RWA · liquidity reporting · data governance · lineage · quality · reconciliation

Tools and platforms: SQL · Python · Power BI · Azure · GitHub · AI / GenAI · Oracle · SAS · Moody's · Qlik Sense / QlikView · Collibra

Experience

Director, Agile Delivery Excellence

November 2024 to present

iostring Technology and Consulting, India

Regulated financial services clients · India operation lead since September 2025

- Wrote the transformation roadmap and target operating model for delivery across product, engineering and business operations.
- Built the Agile Center of Excellence and installed Scrum and SAFe project standards used by squads in live delivery.
- Run intake and capacity end to end, and settle competing stakeholder priorities against real team capacity.
- Present delivery health, risks and recommendations to leadership; unblock architecture, testing and programme issues.
- Bring AI / GenAI into delivery practice with governance in mind, working with engineering on modern delivery tooling including GitHub.
- Lead the India operation: people management, performance, hiring, skills and outsourcing partners.

Delivery Lead, Liquidity Reporting

September 2021 to October 2024

KBC Bank and Verzekering, Brussels and Leuven

EMEA delivery across Belgium, Hungary, Czech Republic and Bulgaria. Interface between Risk, Data Management and IT on Enterprise Risk reporting.

- Led Agile / Scrum project delivery for squads and trains across EMEA against regulatory deadlines.
- Owned intake, capacity and prioritisation across Risk, IT and Data Management when workstreams competed for the same people.
- Prepared and delivered SteerCo and senior management presentations, including Power BI analytics packs with clear recommendations.
- Ran data governance and catalogue delivery with stewardship, and partnered with engineering on Azure and wider risk-data landscapes.

Experience (continued)

Delivery Lead, Liquidity Reporting

September 2021 to October 2024

KBC Bank and Verzekering, Brussels and Leuven (continued)

- Delivered GDPR implementation for Corporate and Retail Banking alongside Basel IV and AnaCredit reporting programmes.
- Led and coached people across the federated EMEA setup, including onshore-offshore partners, performance and hiring.
- Coached the squad that shipped Kate Coin under ECB constraints, keeping technology, risk controls and governance aligned.

Product Owner and Manager, Carbon Zero

October 2020 to September 2021

UST Global for Uplight, India (US, Canada and India)

- Owned roadmap, backlog and release plan, and put priority recommendations in front of the product director and VP of engineering.

Lead Business Analyst, Risk Data

October 2019 to October 2020

Credit Suisse, India

Counterparty credit risk data, post-trade data quality and settlement lifecycle during post-Brexit regulatory change.

- Gathered, analysed and documented IT business requirements for risk data quality and reconciliation, then translated them into technology solutions with engineering.
- Owned data lineage and data governance end to end, and drove remediation when bad data blocked senior risk reporting.

Business Analyst and Solution Architect

2018 to 2019

Sunlife Insurance via ITC Infotech India

- Ran Customer 360 requirements, SOPs and onsite delivery through release across business and IT.

Senior Technical Business Analyst, Risk Technology

2016 to October 2018

HSBC and Credit Suisse, India

Financial risk data for OTC and exchange-traded derivatives. Bridge between Risk and engineering on capital and reporting platforms.

- Wrote BRDs and FRDs for CCR, EAD and CVA across UK (PRA), US (Fed / SEC) and Switzerland (FINMA), then took them into IT implementation.
- Ran data lineage, governance and reconciliation with SQL and Python across risk and analytics stacks including Oracle, SAS, Moody's and Qlik.
- Supported Basel Pillar 3 disclosure packs with Regulatory Managers, and aligned reporting design with BCBS 239 across Risk, Data Management and engineering.

Systems Engineer to Business Analyst

2013 to 2016

Standard Bank of South Africa via Nihilent Technologies, India

- Built specifications for risk systems and regulatory reporting pipelines on data integrity and lineage.

Certifications

ICAgile ICP-ACC · ICAgile ICP-ENT · SAFe SSM · SAFe PMPO · CSPO · IAPP member · AIGP (AI Governance Professional) in progress
