Anjish Bhondwe

Consultant · Business & Functional Analysis · Credit Risk Data · Liquidity Risk Projects

anjish.bhondwe@gmail.com · +91 90968 90003 · Location: India · linkedin.com/in/anjish · Portfolio: anjishbhondwe.com

Professional Summary

Consultant doing business analysis and functional analysis on banking risk and data programmes. At iostring I currently work on Moody's RiskAuthority (RAY) for liquidity risk related projects for a financial-services client: gather requirements, write functional specs, and support analysis with Risk and IT. I also work on credit risk data mapping, reconciliation and SIT/UAT support. At KBC I led Liquidity Reporting delivery across a multi-country banking tribe under Basel IV and AnaCredit. Earlier at Credit Suisse and HSBC I did functional analysis for credit risk, regulatory reporting and risk-data reconciliation. Based in India; can join Singapore immediately.

Core Skills

- Business analysis and functional analysis for banking risk and regulatory programmes
- Currently working on Moody's RiskAuthority (RAY) on liquidity risk related projects
- Credit risk data: mapping, quality checks, reconciliation and reporting support
- Liquidity risk project support: LCR-related reporting, stress testing inputs and stakeholder packs
- Requirements gathering, functional specifications and mapping needs to tools and data flows
- SIT/UAT support: test cases, defect follow-up and business sign-off
- Stakeholder work with Risk, Treasury, Finance and IT
- Regulatory reporting context: Basel, AnaCredit, BCBS 239 data quality
- SQL / Oracle for data checks; Jira and Confluence for delivery tracking
- Familiarity with Moody's RCO / ALM topics when they appear alongside RAY liquidity work

Experience

Consultant · Business & Functional Analysis

November 2024 to present

iostring Technology and Consulting · Belgium and India

Financial-services client · Moody's RAY on liquidity risk projects · credit risk data

- Currently working on Moody's RiskAuthority (RAY) for liquidity risk related projects: business analysis and functional analysis with Risk and IT stakeholders.
- Gather requirements, document functional specifications, and help map business needs to RAY liquidity risk project deliverables.
- Support credit risk data work on the same client: source-to-target mapping, reconciliation and data quality checks with SQL.
- Contribute to LCR-related reporting and liquidity stress testing project activities through analysis, test support and clear MI for stakeholders.
- Support SIT/UAT: test cases, defect follow-up and business sign-off.
- Work day to day with Risk, Treasury, Finance and IT so analysis stays practical and usable.

Delivery Lead · Liquidity Reporting · Senior Scrum Master & People Manager

September 2021 to October 2024

KBC Bank and Verzekering · Brussels and Leuven, Belgium

Liquidity Reporting unit · multi-country banking tribe · Belgium, Hungary, Czech Republic, Bulgaria and India

- Led delivery for Liquidity Reporting in a regulated banking tribe: intake, capacity, dependency management and SteerCo packs under Basel IV and AnaCredit deadlines.
- Worked daily with Risk, Regulatory Managers, Product and IT on liquidity and credit-risk reporting scope, data readiness and release quality.
- Drove SIT/UAT and go-live discipline across onshore-offshore squads so regulatory windows stayed on track.
- Built stakeholder trust with senior Risk and Finance audiences through clear delivery performance, risk and mitigation reporting.

Experience (continued)

Lead Agile Business Analyst · Investment Banking Credit Risk October 2019 to October 2020

Credit Suisse · India

Wholesale / investment banking · bonds and credit risk under CRO / CFO · risk data and regulatory change.

- Functional analysis for counterparty credit risk data quality, reconciliation and decision MI; translated Risk requirements into technology solutions.
- Supported BCBS 239 / IFRS 9 data and reporting work with Risk, Data Management and IT through design and test cycles.

Business Analyst / Product Owner June 2018 to September 2019

Sun Life Insurance, Geelong, Australia

- Documented end-to-end process and data journeys for regulated insurance workflows; produced artefacts stakeholders could adopt through release.

Senior Technical Business Analyst · Risk Technology · Investment Banking 2013 to 2018

HSBC, Credit Suisse and Standard Bank (via Nihilent), India

- Banking risk and regulatory reporting across CCR, EAD, CVA, COREP and Basel Pillar 3 with Regulatory Managers and engineering.
- Data mapping, lineage and reconciliation with SQL across Oracle, SAS, Moody's and BI landscapes; bridged Risk and IT on calculation and reporting discrepancies.
- Wrote BRDs / FRDs and supported SIT/UAT through to production for regulated risk solutions in UK, US, Swiss and South African contexts.

Certifications

SAFe SSM · SAFe PMPO · CSPO · ICAgile ICP-ACC · ICP-ENT · AISM · AIGP · IAPP member

Education

- MBA, Information Technology, RGIMT, 2019 to 2021
- B.E. Information Technology, Savitribai Phule Pune University, 2009 to 2013
- Design Thinking and Digital Transformation, IBMI Berlin, 2021
- AI Regulation and the EU AI Act, KU Leuven, Dec 2025 to Jan 2026

Languages

English (fluent) · Dutch (working) · French (basic)
