

ANJISH BHONDWE

Technical Program Manager | Agile Delivery | Product & Engineering

anjish.bhondwe@gmail.com | +91 9096890003 | [linkedin.com/in/anjish](https://www.linkedin.com/in/anjish) | anjishbhondwe.com | open to Brussels / Belgium

PROFESSIONAL SUMMARY

Technical Program Manager with hands-on experience driving Product and Engineering programmes from initiation to delivery in complex, global, matrixed environments. At KBC in Brussels and earlier at Credit Suisse I worked with Collibra on data governance and catalogue delivery, alongside program leadership across data, platform, DevOps and product squads in five countries. I use Agile and Lean practices, SDLC discipline, delivery metrics and clear executive communication to keep business-critical work on cadence. I remove impediments, escalate risks early, partner with senior stakeholders, and build the processes and visibility that help cross-functional teams ship predictably. Four years based in Belgium; leading India operations since September 2025 and open to returning to Brussels.

PROFESSIONAL EXPERIENCE

Founding Director & Director, Agile Center of Excellence | iostring Technology and Consulting

2023 – Present (3 years) | India · leading India operations since Sep 2025

- Lead programme-level delivery enablement across Business Operations, Product Management and IT Engineering, spanning initiation, prioritisation, adoption tracking and continuous improvement for 1,000+ people impact.
- Build and manage the transformation backlog; align operating-model, governance and delivery-maturity work with stakeholder priorities and measurable outcomes (cycle time, lead time, flow, dependency health).
- Coach leaders and delivery roles; put playbooks, communities of practice and coach-the-coach capability in place so teams own delivery without losing accountability.
- Partner with Product and Engineering stakeholders on objectives, success metrics and process changes that improve how work moves from plan to release.

Agile Program Lead & Enterprise Agile Coach | KBC Bank and Verzekering

Sep 2021 – Oct 2024 | Brussels & Leuven, Belgium

- Owned end-to-end program delivery coaching for data engineering, data science, platform, DevOps and product squads across a five-country matrix, keeping initiatives moving from kick-off to shipped outcomes.
- Worked with Collibra in support of data governance and catalogue-related delivery for regulated banking data programmes, connecting stewardship, metadata and delivery teams around shared outcomes.
- Partnered with Product and Engineering leaders on roadmaps, priorities and predictable delivery for business-critical and regulatory data programmes under SDLC and controlled-change expectations.
- Designed and maintained delivery metrics and management information (velocity, cycle time, flow, risks, dependencies) used in SteerCo and senior leadership reviews for Liquidity Reporting and related portfolios.
- Cleared organisational impediments between risk, business and technology; escalated blockers and risks before they hit business outcomes.
- Strengthened Agile / Lean cadences (PI planning, QAP, refinement, reviews, retrospectives, Scrum of Scrums) and drove continuous improvement in how teams planned, integrated and released work.
- Translated business and technical requirements across stakeholders so squads shared one delivery vision in a multinational, multi-timezone setting.
- Led the Kate Coin programme team: first-of-kind digital bank coin delivered under ECB constraints with cross-functional data and platform specialists (KBC newsroom / Finextra 2022).
- Recruited, coached and developed talent; ran performance and career conversations while building long-term delivery capability.

Product Owner & Manager | UST Global (Uplight Inc.)

Oct 2020 – Sep 2021 | India

- Owned Carbon Zero on GCP end to end: vision, roadmap, release decisions and go-to-market readiness for a multi-country SaaS-style utility sustainability product.
- Coordinated product, data and engineering so features shipped on a shared cadence, with OKRs tied to delivered outcomes.
- Agreed investment trade-offs with Product Director and VP Engineering so capacity followed business priorities in a matrixed stakeholder model.

Lead Agile Business Analyst & Coach | Credit Suisse

Oct 2019 – Oct 2020 | India

- Steered Counterparty Credit Risk data delivery through post-Brexit change; kept MI and audit artefacts decision-ready for senior risk leaders (2,500+ in scope).
- Worked with Collibra on data governance and metadata needs within Credit Suisse data delivery, aligning business, risk and technology stakeholders on definitions and ownership.

Business Analyst | ITC Infotech – AWS Platinum Partner

2018 – 2019 | India · Melbourne, Australia

- Drove Customer 360 digital change for Melbourne, Australia engagements: scope, dependencies and release readiness with business and IT.

IT Business Consultant | Standard Bank | Credit Suisse | HSBC

Sep 2013 – Oct 2018 | India

- Built delivery depth from systems engineering into business analysis on regulated banking programmes, working across engineering initiatives and business stakeholders.
