EPAM Systems

Re: Delivery Director – Technology (Belgium / Netherlands, hybrid)

Dear EPAM Hiring Team,

I am applying for the Delivery Director – Technology role in the Benelux. I am a returning Belgian resident, based in Belgium, open to hybrid work in Belgium or the Netherlands, and ready to lead large client engagements from end to end.

I have 13 years leading complex technology delivery. At KBC in Brussels I led a four-country programme (Belgium, Hungary, Czech Republic, Bulgaria) at 150-200 FTE, with SteerCo accountability and distributed teams across architects, engineers and QA. At iostoring in the Benelux I built the delivery enablement practice and Agile Center of Excellence and lead 150-200 FTE client programmes. I am AIGP certified and bring hands-on AI and GenAI delivery experience.

I do not need a work permit and would welcome an interview to discuss how I would lead delivery and client relationships for EPAM in the Benelux.

Yours sincerely,

Anjish Bhondwe
