- Founded and lead the **Agile Center of Excellence** and a **community of practice** for scrum masters, product owners and chapter leads. This is the company-wide guild I use to harmonise **Scrum** and **Kanban**, share best practices and run coach-the-coach paths.
- Lead the **India operation** (people management, hiring, performance, skills development) and coordinate **offshore partners in India** on **transfer of activities**: move run and **lifecycle management** work to outsourcing partners so local squads stay on change and the target vision.
- Practice full Scrum Master duties on client squads: facilitate all **Scrum ceremonies**, support product owners on the **Product Backlog**, track **team capacity and velocity metrics**, and report deployment of the **Scrum methodology** to client leadership.
- Coach squads on **Definition of Done**, **Sprint Backlog** delivery and **self-organization**; remove barriers, protect teams from distractions, and manage **risk and issue management** across dependencies and offshore handover.
- Support **AI and GenAI** programmes for financial services clients; apply **AI governance** (AIGP, EU AI Act) in how squads plan, test and release AI-backed features.
