

Anjish Bhondwe

Delivery Enablement Lead · Regulated Financial Services

freelanceanjish@gmail.com · +32 489 858 959 · linkedin.com/in/anjish · anjishbhondwe.com

Available in Brussels from October. I do not need a work permit for Belgium.

Professional Summary

Delivery Enablement Lead with 13 years in regulated banking, insurance and **financial market infrastructure**. At KBC in Brussels I ran **delivery enablement for squads and trains across four EU countries: intake and capacity, governance and SteerCo reporting, dependency and risk management, and escalation**. Since November 2024 at iosting I built the **delivery enablement practice and Agile Center of Excellence**. At Credit Suisse and HSBC I worked on financial risk management and **post-trade architecture (T+1 and T+2), settlement, clearing** and regulatory reporting in tier-1 investment banking.

Core Skills

Delivery enablement: squads and trains · Scrum · SAFe · **intake and capacity** · **SteerCo** · **escalation** · **product owners** and **scrum masters** · **outsourcing partners**

Post-trade and FMI: **settlement** · **clearing** · T+2 · **CSD** · **market infrastructure** · trade lifecycle · safekeeping

Risk and regulatory: CCR · EAD · CVA · Basel Pillar 3 · Basel IV · BCBS 239 · RWA · AnaCredit · GDPR

Data and analysis: **data lineage** · **governance** · reconciliation · data modeling · source-to-target mapping

Experience

Director for Agile Delivery Excellence

November 2024 to present

iosting Technology and Consulting, India

Delivery enablement for regulated financial services clients · India operation lead since Sep 2025

- Built the **delivery enablement practice** and **Agile Center of Excellence** from scratch: standard **Scrum** and **SAFe** ways of working, **governance** foundations and coach-the-coach paths across product, engineering and business operations.
- Run **intake and capacity** end to end: capture demand, clarify scope, prioritise work, route to **squads** and keep delivery balanced against available capacity.
- Work with **product owners, scrum masters and chapter leads** on backlog quality, tribe ceremonies, flow metrics and cross-squad dependencies.
- Track delivery health (cycle time, throughput, dependencies) and report to leadership with clear mitigations at SteerCo-style reviews.
- Act as **escalation point** when squads are blocked; coordinate architecture, testing and programme management to unblock delivery.
- Since Sep 2025, manage the India operation: people management, performance, hiring, skills development and **outsourcing partners**.

Delivery Lead

September 2021 to October 2024

KBC Bank and Verzekering, Brussels and Leuven

Delivery Lead for the Liquidity Reporting unit in a regulated banking tribe across Belgium, Hungary, Czech Republic and Bulgaria.

- Led **squads and trains across four EU countries** with **agile and hybrid delivery**: PI planning, **tribe ceremonies**, dependency management and **SteerCo reporting** to tribe leadership.
- Owned **intake and capacity** for the unit: prioritised demand, allocated work across squads and kept the portfolio aligned with capacity and regulatory deadlines.
- Coordinated **product owners, scrum masters**, architects, testers and programme managers on **dependencies and risks**; was the **escalation point** when squads were blocked.
- Owned **delivery KPIs** and the SteerCo picture for leadership: reported delivery health, risks and mitigations; kept liquidity reporting windows on track under Basel IV and AnaCredit.
- Delivered **GDPR implementation** for Corporate and Retail Banking alongside data-heavy regulatory reporting programmes.
- Coached the squad that delivered Kate Coin, a digital bank coin built under ECB constraints.
- Managed performance, development, hiring and **onshore-offshore and outsourcing partners** across the federated setup.

Experience (continued)

Product owner and manager, Carbon Zero

October 2020 to September 2021

UST Global for Uplight, India (team across the US, Canada and India)

- Owned a sustainability data product on Google Cloud: roadmap, backlog, release plan and priority conversations with the product director and VP of engineering.

Lead Business Analyst

October 2019 to October 2020

Credit Suisse, India

Tier-1 investment banking: post-trade data quality and settlement lifecycle; post-Brexit regulatory change.

- Lead BA for data quality and reconciliation in **post-trade** flows (securities, CDS, RWAs, **trade settlement and lifecycle management**); end-to-end **data lineage and governance**; aligned stakeholders and guided tech implementation.

Business analyst and solution architect

2018 to 2019

Sunlife Insurance via ITC Infotech India

- Customer 360 digital transformation at Sunlife Insurance: requirements, SOPs and end-to-end onsite delivery through release.

Systems engineer to senior technical business analyst

2016 to October 2018

HSBC and Credit Suisse, India

Tier-1 institutions: **post-trade architecture** and **settlement** data in a **market infrastructure** context. Senior technical BA / system analyst on financial risk across OTC and exchange-traded derivatives, swaps, bonds, equities and securities.

- End-to-end **data lineage, governance and reconciliation** across product portfolios for risk management and capital calculations.
- Wrote BRDs/FRDs for CCR, EAD and CVA in Tier-1 jurisdictions: UK (PRA), US (Fed/SEC) and Switzerland (FINMA); built logical data models, schemas and system design from requirements to IT implementation.
- Worked with Regulatory Managers on Basel Pillar 3 disclosure validation and delivery; optimised RWA and reduced capital penalisation risk.
- Collateral management and margin workflows: specifications for real-time asset valuation and margin calling to mitigate credit exposure.
- T+2 trade settlements**: data quality, source-to-target mapping and **reconciliation** for lifecycle management; aligned downstream reporting with BCBS 239 as bridge between risk teams and **engineering squads**.

Systems engineer to business analyst

2013 to 2016

Standard Bank of South Africa via Nihilent Technologies, India

Financial data architecture, risk systems and regulatory reporting pipelines in a regulated banking setup.

- Systems analyst on financial data architecture, risk systems and regulatory reporting pipelines; turned business needs into technical specifications between business units and engineering on data integrity and lineage.

Certifications

ICAgile ICP-ACC and ICP-ENT · SAFe SSM and PMPO · CSPO · AIGP · IAPP member for GDPR Practices and AI Governance
