Agile Transformation Coach · AWOW / EITS · Brussels (ProUnity K10122)

Re: Freelance assignment 22 Oct 2026 to 31 Oct 2027 · Hybrid

Dear Hiring Team,

I am a professional leader and Agile SME with 14 years in complex IT. I am applying for the Agile Transformation Coach assignment on AWOW and EITS. The six deliverables sit inside the work I have done with maturity assessment, transformation roadmaps, operating models, governance, KPIs, coach mentoring and management coaching.

At KBC in Brussels and Leuven I worked across multi-country squads and trains. I raised delivery maturity, coached the delivery vertical, and brought SteerCo packs that named capacity, risks and the decisions management still needed to take. At iosting, as Director of Agile Delivery & Transformation, I write the transformation roadmap and target operating model and coach the practice that has to live after the workshop ends.

I hold a Belgian residence A card and I am an immediate joiner for this freelance assignment in Brussels (hybrid). I work in English, with working Dutch and basic French. Happy to walk through how I would approach the AWOW / EITS assessment and roadmap in the first weeks.

Yours sincerely,

Anjish Bhondwe
